KILLED OR NOT KILLED

THAT IS THE QUESTION TO BE DECIDED REGARDING FRUIT CROP.

WHAT GEORGETOWN MAN HAS TO SAY TODAY

Judge David Kinsey Says the Crop Has Not Been Badly Damaged—Mr. L. A. Goodman Entertains Far Different View.

H. H. Meier, of Georgetown, fruit grower and truck raiser, informs the Democrat-Sentinel that the freeze of Monday night did not kill much of the fruit.

"Some of the early peaches were killed all right enough," said Mr. Meier, "but unless we have more freezing weather we will have plenty of peaches anyhow.

"Cherries are all right, and quite likely the pears. I live up on the hill, and none of my garden truck was damaged.

Judge David Kinsey, who poses as an expert, says the peach crop is all right and very few buds were killed by the freeze of Monday night. He predicts a bumper crop of peaches and of all other kinds of fruit unless it is killed after this date.

The Kansas City Journal this morning had the following regarding the fruit crop:

Severe weather Monday night and Tuesday morning just about ended all prospects for peaches in this vicinity, according to L. A. Goodman, secretary of the state horticultural society. The peach crop was in poor condition before the frost Monday night, and buds which until then had been intact suffered greatly. In Kansas City where the trees were sheltered by houses and buildings the damage was not so great, but in the orchards near Liberty and Parkville the Elberta peaches and several other varieties were nearly wiped out.

Pears and plums also came in for their share of damage from the frost, though the pear and plum crops will be good, so far as can be determined at the present time. The berry crops, which will be poor at best, according to the reports of the horticultural society, were not injured.

WILL WED THIS EVENING

Mr. Russell Cone and Miss Mabel Echard, by Rev. Campbell.

Russell Cone, an M., K. & T. painter, employed at the shops in Sedalia, and Miss Mabel Echard, a seamstress at the J. A. Lamy Manufacturing company, residing at 615 East Tenth street, will be united in marriage at the study of the First Baptist church at 6:30 o'clock this evening.

The pastor, the Rev. F. Y. Campbell, will perform the ceremony, which will be a very quiet affair.

Miss Mabel Shepard will serve as bridesmaid and A. M. Patton as groomsman.

The couple will make their home in this city.

FORMER SEDALIA GIRL WEDS

Miss Margaret R. Harbaugh and Mr. Laverne D. Bryson.

Miss Margaret Russell Harbaugh, a former Sedalia girl, now residing at Colorado Springs, Colo., was united in marriage last Sunday to Laverne D. Bryson, of Cripple Creek, Colo., at the bride's home. They will be at home at 409 West Eaton avenue, Cripple Creek.

Miss Harbaugh is a graduate of the Sedalia High school and is a daughter of Mr. and Mrs. W. M. Harbaugh, former Sedalians, who now reside at Colorado Springs.

THREE INCHES OF SNOW

La Crosse, Wis., April 14.—A severe snow storm is raging here.

Three inches have already fallen, and there is no sign of abatement.

Couple of Cases Continued.

Today, when arraigned before H. M. Gresham, judge of police court, he asked for a continuance until tomorrow, which was granted.

The case of Luther Dyer, a negro boy, charged with throwing a switch in the Missouri Pacific yards, was also continued until tomorrow, at the request of the prisoner.

Says He's a Grass Widower.

Dr. George Goodwin, the old-time cancer doctor, who is now living at Eldon, is a visitor in Sedalia today.

"I'm getting younger," said the doctor to the Democrat-Sentinel, as he removed his hat and exhibited his carefully combed locks. "I've got to keep young, too, for I am a widower now, a grass widower of the blue grass variety, and they never get old."

WAR DEPAPTMENT HAS ISSUED AN ORDER AGAINST THE SALE OF THEM.

FALL INTO HANDS OF REVOLUTIONISTS

Washington, April 14.—Orders have been issued by the war department stopping the practice of selling discarded arms of the United States army.

It has been reported that revolutionists in Central and South America have obtained arms from the United States.

The police of Chicago also complained against the indiscriminate sale of old Springfield rifles, pointing out that they might imperil the community in time of riot or strike.

THE NEW HOTEL BUILDING

Man Who Is Back of the $150,000 Project Visits Sedalia.

H. W. Tiernan, general manager of the C. L. Gray Construction Co., which firm is to erect the $150,000 hotel in Sedalia, spent Tuesday in Sedalia with J. W. Hootman, manager of Le Grande hotel, and looked over the proposed sites for the new hostelry.

Mr. Tiernan returned to Kansas City last night, but will return here in a few days to definitely decide on a location.

It is possible, according to Mr. Tiernan, that the hotel will be equipped with 200 rooms, instead of 150, as was originally intended.

MAN WHO LIVED OFF GIRL

HORRIBLE EXAMPLE IS MADE OF HIM BY A JUDGE IN KANSAS CITY, MO.

Judge Kyle Fines Thomas Rattan $1,000 for His Treatment of Nineteen-Year-Old Virginia Reeder.

Kansas City, Mo., April 14.—Judge Harry G. Kyle in Central police court yesterday made an example of Thomas Rattan, alleged professional vagrant, who not only has been living off earnings of unfortunate women, but has promoted their interests to increase his income. Rattan was fined $500 on each of two charges, in default of which he will spend the next year in the workhouse.

The arrest resulted from Virginia Reeder, 19 years old, former resident of Excelsior Springs, being caught in the act of accosting strange men on Grand avenue near Twelfth street Monday night.

Realizing her predicament, the girl broke down and told the policemen she was being compelled to lead the life of shame by a man whom she had met a short time before at her home. She then substantiated her statement by pointing Rattan out. Both were arrested.

Judge Kyle had the prisoners arraigned individually. In that manner he succeeded in bringing forth a story horrible in detail from the unfortunate girl.

She said she had met and fell in love with Rattan in Excelsior Springs. Shortly afterwards she was induced to come to Kansas City, where later she was compelled to follow a life of shame to support herself and Rattan.

Rattan denied everything, saying he worked steadily and provided for the girl. The evidence was against him, however, and the severe sentence was meted out, much to the satisfaction of the crowded court room. The girl was turned over to Humane Officer W. H. Gibbons.

The Ladies' Musical Club.

The Ladies' Musical club met at the Elks' club rooms this morning and indulged in chorus practice for the annual concert to be given Friday night, May 7. The tickets for the concert were distributed among the members and are now on sale at $1 each.

Fr. Daniel Visited Mrs. Burrowes.

The Rev. Christian Daniel, assistant pastor of Sacred Heart church, returned on the Katy flyer this morning from a day's sojourn in St. Louis.

While there he visited Mrs. E. B. Burrowes, who has been receiving medical treatment in the Mound City for the past three months, and found her condition greatly improved.

Mrs. Burrowes asked about scores of old friends here, and is looking forward with pleasure to the time when she can return home fully restored to health, the physician and Sisters assuring Fr. Daniel that it is only a question of a few months until this is accomplished.

"NIGHT RIDERS" AGAIN

THEY ARE TERRORIZING LAND OWNERS AND TENANTS IN INDIANA.

A GANG OF TWENTY AT HARRIMAN'S FERRY

Warned if They Pay Greater Rent Than One-Third of the Crop Raised Their Crops Will Be Ruined Before They Are Ripe.

Washington, Ind., April 14—Night riders are terrorizing land owners and tenants in the vicinity of Harriman's Ferry, south of here.

William Schrolucke, owner of 700 acres in that neighborhood, reported that twenty men on horseback visited all of his tenants and informed them if they paid a greater rent than one-third of the crop raised their crops would be mowed down before they became ripe.

The "riders" are resorting to the same tactics here that they have in Kentucky for some time past.

WILL LECTURE ON "DIVORCE"

Lawyer Lynch at Meeting of Knights of Columbus.

W. G. Lynch will lecture on "Divorce" at the next meeting of Sedalia council No. 831, Knights of Columbus, Tuesday night, April 20.

At last night's meeting of the council Judge D. E. Kennedy delivered an interesting talk on "Patriotism," after which refreshments of sandwiches, fruit and cigars were served.

Committees were appointed by Joseph Paradis for the class initiation on May 16.

THE "DRYS" SEE VICTORY

REPUBLICANS AND DEMOCRATS PREDICT THE HOUSE WILL ADOPT AMENDMENT.

SEVENTY-TWO VOTES NEEDED TO PASS IT

St. Louis, Kansas City and St. Joseph Delegations Will Solidly Oppose Submission—Comes Up at 3 O'clock P. M. Today.

Jefferson City, Mo., April 14.—This morning the prediction of republican and democratic house leaders is that the prohibition amendment will be adopted in that body when it comes up at 3 o'clock this afternoon.

Figures are given by some of the members. Representative Brassfield, one of the conservative repuolican members, counts on twenty-eight or thirty republicans who will vote for the amendment, while Representative Lloyd is of the opinion that not more than twenty-one republicans will vote for submission.

Representative Barker says that not fewer than forty-five democrats will support the prohibition resolution. Both sides have been counting noses, and it is expected that neither the Brassfield figures nor those by Barker will be far from the actual number of votes which the amendment will get from the respective parties.

It will require seventy-two votes to carry. If the democrats cast forty-five and the republicans twenty-eight the resolution is safe, with one vote to spare. The St. Louis delegation and that from Kansas City and St. Joseph will solidly oppose the amendment.

The brewing and liquor interests are alarmed. If the amendment could have been submitted with a tax rider they believe it would fail of adoption. But they are making no noise in their opposition.

The senate, according to Senators McDavid and Mayer, will submit prohibition. They figure eighteen democratic senators and three republican senators will certainly support the amendment. The senate committee on constitutional amendments is awaiting action in the house before reporting out the amendment.

The Wife Alleges Desertion.

Pernie M. Garrity, through Attorney Lawson, instituted suit in circuit court today for divorce from Barney M. Garrity, alleging desertion. She also asks for the custody of their 4-year old son, Leo Garrity. They were married on October 14, 1903, and lived together until February 23, 1906, on which date plaintiff alleges her husband deserted her.

Ed Stevens in Los Angeles.

Mrs. E. W. Stevens is in receipt of a letter from her 17-year-old son, Edward, who recently left home in company with two other boys for a trip through the west, saying that he had located in Los Angeles, Cal., and had secured a good job in a packing house there. The two lads who left home with young Stevens separated from him at El Paso, Texas, and returned home, while Ed continued his trip westward.

The crime to which the young woman pleaded guilty was sensational. She killed Dr. Auspitz, she said, because he attacked her while she was under the influence of an anaesthetic. She was a nuse in a sanitarium which Dr. Ausnitz conducted.

FOLK RETIRED ON $100

AFTER SETTLING AFFAIRS AT CAPITAL HE HAD HARDLY THAT SUM LEFT.

MR. HAWKINS, OF DUNKLIN, TELLS STORY

He Advocates $5,000 Raise in Executive's Salary—Wants Increase Himself, and So Do Many Others, He Says.

Jefferson City, April 14.— There is a strong sentiment among Missouri legislators in favor of increasing the salary of the governor from $5,000 to $10,000 a year. Mr. Hawkins, of Dunklin, said:

"Boys, I am in favor of increasing the pay of every state official who holds an important position. None of them is paid enough. We do not get enough ourselves!

"But we can not increase all the salaries, so I say let Governor Hadley practice economy along with the rest of us until the finances of the state are in better shape.

"I am in favor of an increase for the governor, as I know that Joe Folk went back to St. Louis with considerably less than $100 in his pocket after settling his affairs in Jefferson City at the end of his term.

"This is not right, but I do not see how we can increase the salary of one official and leave out all the others."

Then the question of a new state capitol was taken up.

"They say we can spend $5,000,000 for a new building through the agency of a bond issue without it costing the people anything," said Mr. Hawkins. "I have not been able to figure it out and stump speakers will have a hard time convincing anyone that the state can spend $5,000,000 without the people feeling a tug.

"If we should pass the capitol resolution and the people would adopt it, I would not be surprised to see the new structure cost $15,000,000, instead of one-third that amount."

One representative suggests that a new wing be added to the east side of the building and give up the idea of a new structure. Another said that the contractor who built the north and south wings said that the foundations would easily support two more stories.

Still another suggested that $100,000 could be profitably spent in cutting through several entrances to the basement on the ground level, the installation of elevators and the like, but none wanted to spend millions for a new building.

CHIEF TARIFF HONORS TO FORDNEY.

Nearly four weeks were spent by the house of representatives in considering the tariff bill before it was passed. Considering the general nature of the revision and the complicated controversies in which it is clouded, this seems to be a reasonably brief time in which to debate, amend and pass a complicated measure. And yet it is a long time in which to hold the business of the nation in suspense, particularly at a period of the year when industry is planning far ahead and commercial activities receive their greatest impetus.

How long the senate will add to the uncertainty will depend largely upon how accurately the finance committee has construed the sentiment of members in its advance treatment of the Payne schedules. If it has sounded senate opinion well it ought to make its alterations in the bill acceptable without prolonged debate and without provoking any disagreeable contests. It has already spent much time in considering the original draft of the Payne bill, and especially those schedules ove which the greatest differences have arisen, and an early report of the bill may therefore be expected.

The bill goes from the house to the senate with a great number of changes, nearly all of which, however, are trivial. Upwards of 125 amendments were made in all, but with the exception of a few, they were so unimportant that they were not reported by the press.

The biggest change downward was the placing of petroleum on the free list. Public sentiment forced the house to desert the ways and means committee on the ridiculous proposal to tax tea and coffee. With these exceptions the alterations were mostly upwards.

The duties on iron, barley and a half dozen other schedules were increased, while the unpopular tax on stockings and glove is retained. The steel trust is stil amply protected, the recommendations of the committe for a 50 per cent cut mostly prevailing.

THE HIGH PRICE OF WHEAT.

Wheat, after leading a comparatively unostentatious life for several years, is again the sensation of the day. With the price soaring toward the $1.30 mark for May delivery, the speculators, farmers and onlookers are wondering where and when the spectacular rise will stop.

Will the deliveries be made without a crash and will the bottom tumble out of the market thereafter or will later wheat be eagerly sought? The indications are that, allowing for a reasonable margin of speculative influence, relatively, the high prices of wheat have come to stay for some time, possibly another year.

There is a genuine scarcity of wheat. Two years of short harvests have depleted the world's supply, which must last three or four months yet. The American crop, according to the latest estimates of the agriculture department of the government shows a low condition, considerably below the average, so that the prospect of a large yield on this continent is not promising.

Similar reports come from Argentine, which is second as a world's supply house only to North America. It is said that great damage has been done to the crop now growing and that the surplus of that country for exporting purposes will be some 50,000,000 bushels short.

England is in the market for 20,000,000 bushels to carry her over until the new season's production commences to come in, while experts declare that the United States has barely enough wheat in its warehouses to meet its own needs. It is therefore certain that what wheat is exported from America to the old world during the next few months will command a high price abroad and, of course, a relatively high figure at home.

But for all these discouraging reports and estimates, it is hardly likely that future conditions will be as bad as predicted. It invariably happens that crop pessimism is over-calculated. There is naturally an immense amount of speculation in the present situation and speculation always leads to exaggeration. Inordinately high prices generally bring out more wheat than was supposed to exist, and in all probability nature will not be as severe as the bulls are prophesying.

Prices are likely to fall when apprehension is dissipated and speculators have played their last card, but even allowing for such a drop, farmers ought to realize large returns from their wheat the coming year.

A year ago an ardent Missouri pastor of democratic persuasion prayed for tariff revision, but with an increased duty on zince, nevertheless. The pious petition has been granted in the tariff bill, but whether this Missourian should thank the Lord or Sereno Payne for the same, we leave him to determine.

John D. Rockefeller's clerical adviser says drinking it not wrong, but excessive drinking is. Does the good gentleman advocate the same theory in respect to money getting?

Any girl who has a waste basket in a fair state of preservation can have a new spring hat without much cost. A few flowers and ribbons will do the rest.

The promptness with which Mrs. Georgia Sampson was acquitted ought to furnish ground for some kind of a damage suit, we should think.

The house increased the committee's duties on collars and cuffs. Now, will Troy, N. Y., be soothed a little time and take a nap?

And there stands the senate, too, you know. A long, dark, rough and rugged way stretched ahead of us, brethren.

And what's still worse, there's no prospect of the revision of the cost of living downward.

Poor Castro! Aren't there any old soldiers' homes down in South America?

The African elephant walks around as the band begins to play.

HER MOMENT OF COMPLETE JOY.

When Grandmother Reads First Letter from Her Grandchild.

You may talk about great state papers, of presidents' messages, of royal exchanges of salutations, and all that sort of thing, but when you want to strike a chord that beats in harmony with the human heart, just see that grandmother reading that first letter from her grandchild. All time and space, and things created and uncreated, are concreted into the bliss of the moment, when the dear woman drinks in the meaning of those awkward, hesitating, incongruous lines, which with all their crudities, still seem stately and dignified under the emotion of a first great effort.

There is nothing like it. Shakespeare never matched it. Dante reads like an almanac by the side of it. It is a revelation that makes St. John's seem insipid and pale. The good woman reads it over and over, and thinks away back when she was a little girl, and when the child's mother was a little girl, and then of this little boy, just starting to open a path into the mystery of life; and she reads another passage of the sweet, blundering letter, which closes with the very formality of affection—"Your loving friend"—and then her thoughts rush out of the window into the gray skies, but after a while they come back, bringing her the assurance from somewhere, that of all the blessings of life, one of the sweetest has come to her—that of getting the first epistle from her first grandchild.—Columbus (O.) State Journal.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefitted by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion.—Arlington Pharmacy.

INDEPENDENCE

DAY in and day out; rain or shine; sunlight or shadow; all the way down through the years of life one great desire seems to exist—to be independent. If you have never felt this desire it is probably because you have never really thought seriously and earnestly about the unlimited want, suffering and regret that may come to a man or woman who grows old and becomes dependent upon others for the comforts and necessities of life. The only sure way to avoid such an unfortunate condition as penniless old age—the only way to become independent—is to save right now—today—every day. For the entertainment of its members and visitors at its regular meeting Thursday night, April 15, Sedalia camp of Modern Woodmen will vary its exercises by a somewhat novel program.

It has as membes a goodly number of lawyers and doctors, and a prominent representation of each profession will try conclusions in a joint debate on "Resolved, That the Profession of Law is More Useful and Necessary to Society Than that of Medicine." Speeches limited to ten minutes each.

The following questions have been referred to the members, their answers being subject to discussion:

"What is a dude, it's origin, and what do you think of it?"

"What was the most amusing thing you ever saw?"

"What influence does the mon exert on vegetation?"

All Modern Woodmen are made welcome at these meetings.

Trailing Naturalists in South Africa.

Helpful Hints for Correspondents.

Nairobi, East Africa.—Anticipating the arrival of ex-President Roosevelt and his party, a new code for hunting and trailing is promulgated, as follows:

The traveler, the explorer, or correspondent will do well to bear in mind certain well known characteristics of the Faunal Naturalists, of which, on the whole continent of Africa, there is only one group.

If, in breaking one's way through the thornbush, one finds an empty Bull Durham pouch, it is a sure sign that a certain eminent Faunal Naturalist has been that way. Moreover, it is a sign that he has entertained the native chiefs and wise men, for the Colonel himself does not smoke.

In making one's way across the lonely veldt, if one finds, beside a recent camp fire, the countenance of a dog, on a tobacco pouch (empty), this too, is to be considered a sign that the Colonel has passed that way—but it indicates that, instead of Bull Durham, he has decided to offer his guests "Dog's Head."

The finding of an empty can, marked "Tortoise Shell Mixture," is to be regarded as an infallible sign that Secretary Kermit Roosevelt has passed that way. The presence of the secretary, as is well known, indicates the close proximity of Col. Roosevelt himself.

It is not absolutely necessary, however, to depend on mere keenness of eyesight. A hunter with a delicate, well trained sense of smell—so well trained that he can recognize the delicate fragrance of Cameron pocket slice will know at once what that sign indicates. The instant that fairy fragrance is wafted to his senses, the well informed trailer will know that, somewhere up the wind is Secretary Kermit—and somewhere near Secretary Kermit, is hunter Roosevelt.

Secretary Kermit, in fact, is about the best equipped smoker in East Africa.

Hunter Roosevelt does not smoke at all. But Son Kermit has been a smoker for the last five years and the Colonel's watchful eye sees no harmful effects from it.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package.—Arlington Pharmacy.

The discovery has been made in Paris recently, that the Greeks 2,000 years ago wore corsets and other articles of modern feminine dress, according to the Paris correspondent of the New York Times. Mme. Paquin and Jules Bois disclosed the fact in the latter's play, "La Furie," at the Comedie Francaise, for which the famous dressmaker designed the costumes after consulting some of the oldest records. Jules Bois said to me:

"There is really nothing new under the sun. The ordinary conception of Greek dress refers only to certain periods. I know what I am talking about.

"I have studied the works of Schliemann on Mycenae and of Evans and De Mosso on the prehistoric epochs. I have made excavations at Knossos and in Crete. I have visited museums. I don't imagine the things I write about. The Grecians of the most ancient periods had modern figures. This is the point I insist upon. Look at the statues of the women, ancient Greek vases and sculptures and you will see ribbons, crinoline, headdresses, basques and corsets. The cycling skirt was the usual mode at the court of Agamemmon."

To prove his points M. Bois had photographs of old sculptures and vases. These are extraordinarily like the modes of 1880. From these Mme. Paquin made the costumes for the play. Of course, this upsets popular ideas about Greek dress, and probably a musical play showing Ulysses in pajamas and Dido in a kimono will be produced on the boulevard as a result.

VERY EVIDENTLY HIS FIRST ONE.

Young Man Was Proud Parent, and Didn't Care Who Knew It.

There was no booth in the corner drug store. The young man at the telephone therefore could be heard by all the customers who ranged about the soda water fountain. His face beamed as he talked.

"Everything is all right," he was saying.

"Ma'am?

"Yes'm. Eleven pounds. Beautiful boy. Like me, they say.

"Ma'am?

"Yes'm. Resting quietly. Would have sent for you, but thought it best not to. Didn't want to worry you.

"Ma'am?

"Yes'm. I'll attend to all that.

"Ma'am?

"Yes'm. I'll tell her you're coming down right away. Beautiful boy.

"Ma'am?

"Yes'm. Eleven pounds and looks just like me."

He rang off and walked proudly out of the drug store apparently oblivious to the smiling countenances of his interested listeners ranged around the soda fountain.

Vintage Nicknames.

We have nicknames for the vintages which few persons except the wine-drinkers know. Thus the vintage of the present year we call Zeppelin, in honor of the air navigator's achievement and because it is so high. Records show that these nicknames were bestowed on vintages as far back as 1529, when the bad-watered wine was called "Baptist."

The sour wine of 1860 was called Garibaldi, and in memory of the Chinese war the 1894 wine is still known as Weihaiwei. The vintage of 1896 promised much and gave little, and was nicknamed Li Hung Chang, and another nickname for the same year's wine, Moses, was given because the wine was taken from the water principally.—Munchener Neurichten.

Ghosts in Scottish Houses.

Scotland is rich in ghost lore. There is, perhaps, hardly a castle or ruin which has not some special story clinging to it, and the strange part of the matter is that many of the legends are substantiated by latter day experiences. Dunrobin castle, the Highland home of the duke of Sutherland, boasts of a haunted room. The specter there is invisible and denotes its presence by an awe-inspiring laugh. The story goes that one of the duke's ancestors caused the chief of a rival clan to be starved to death in his room, visiting him periodically during his sufferings and laughing at his tortures. As punishment for this crime the unscrupulous chieftain has to haunt the room.

Old and New.

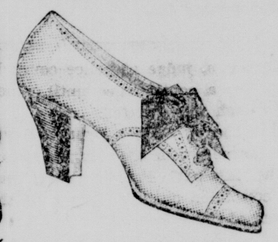

The penny—or two-cent—post between England and America is a new and at the same time a very old thing. It is over 200 years old. It existed in 1698.

In those days shipmasters crossing the Atlantic either way were very glad to carry letters and messages. A week or two before their ships sailed they would hang up bags in coffee houses, and all letters dropped into these bags were carried over seas and faithfully delivered at the rate of a penny, or two cents, apiece.

WILLIAM WANTED NO LAWYER.

Reason Assigned Was Something of a Slur on the Profession.

When Justice Buffum opened court in a small town in southern Georgia one morning last week, he called loudly: "Jones against Johnson!"

A dignified gentleman came to the bar, and said: "I am Dr. Jones, your honor, the complaining witness. My chickens were stolen and found in the possession of—"

"One moment, doctor," the judge interrupted. "We must have the defendant at the bar. Jones against Johnson! Jones against Johnson! Is the defendant present? Is William Johnson in court?"

A tall and shambling negro shuffled to the bar, ducked his head, pulled his woolly forelock in token of respect, and grinned a propitiatory grin.

"Ah's Willyum Johns'n, please sur, jedge," he said. "Ah doan' know nuffin 'bout no 'fendant, suh. Ah'm jes' de man wot took de chick'ns."

"Don't talk like that," the court warned William. "You ought to have a lawyer to speak for you. Where's your lawyer?"

"Ah ain't got no lawyer, jedge—"

"Very well, then," said his honor, "I'll assign a lawyer to defend you."

"Oh, no, suh; no, suh! Ple-e-ease don' do dat!" William begged.

"Why not?" asked the judge. "It won't cost you anything. Why don't you want a lawyer?"

"Well, ah'll tell yo', sah," said William, waving his tattered old hat confidentially. "Hit's jes' dis-a-way—ah wan' tuh enjoy dem chick'ns mase-f."

BURIED ALIVE FOUR DAYS

Ohioan Under Earth and Stone at Bottom of a Well.

Springfield, Ohio, April 14.—Is John Toler alive? Is there a chance to rescue him?

These are the questions that thousands of interested people are asking. Four days ago Toler was working in the bottom of the well on the Oelker farm, north of this city, repairing the pump. The well is seventy feet deep and was walled with boulders of various sizes and shapes.

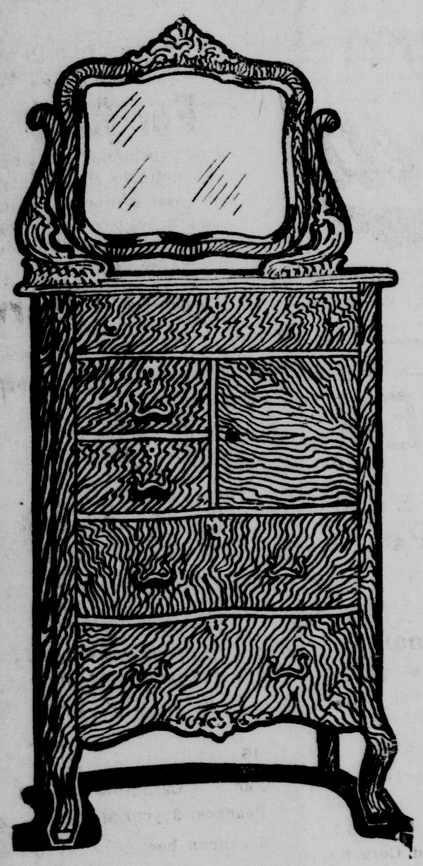

In his work Toler must have jarred the wall, which with slight warning, tumbled in on him carrying part of the earth with it, and filling the well to the brink. The news spread rapidly and hundreds flocked to the scene.

Ever since men have worked frantically to reach the unfortunate man. They have been spurred on by faint tappings on the pump stock which were heard when they began work. The task of talking out the debris is necessarily slow, as the walls have to be braced with every foot descent made to prevent further caving in. The workers, who take turns, are now down to within twenty-two feet of the bottom. It will be Wednesday evening or Thursday morning before the bottom can be reached.

People have flocked to the scene from four counties, and the rush has been so great to get to the mouth of the well that a policeman has been put on guard. Sunday it was estimated that 5,000 people visited the scene. Hope that Toler is alive rises and falls alternately as some new discovery relative to the well is made.

SAYS STATE IS WRONG

FORMER SUPREME JUDGE THOMAS DISCUSSES RAILROAD SITUATION.

THE LAW SHOULD TAKE ITS COURSE

Claims That Antagonism of Governor and Legislature is in Defiance of Court's Recent Decision in This State.

On April 4, there appeared in the St. Louis Star a communication from former Supreme Judge John L. Thomas regarding the present controversy between Governor Hadley and the railroads of Missouri. Judge Thomas says:

I regret very much to know from press dispatches that the governor and the general assembly do not seem to be disposed to let the law take its course in regard to the regulation of railroad passenger and freight rates in our state. Judge McPherson decided that the 2-cent and maximum freight rate fixed a couple of years ago by the Missouri legislature was confiscatory and hence unconstitutional and void. It is clearly within the province and it may be the duty of the state administration to take the case to the higher courts, but it does not seem to be disposed to stop at that, but proposes to go farther and make ineffective the constitutional principle, announced by Judge McPherson.

In short, it is proposed to evade that constitutional principle and have the state do indirectly what the court has decided it cannot do directly. It is proposed to control the railroads, by new legislation, to charge no more than the confiscatory rates. The Standard Oil company has been denounced for trying to evade the law, as declared by the supreme court of Missouri, and now I fear the state will set a pernicious example of the evasion of the law, and a constitutional law at that, as declared by the court.

The state ought to present to male factors of high and low degree an ideal standard of morality and righteousness for them to follow in their business; and hence for our great state to seek to evade the constitutional principle as declared by the court by any kind of device or subterfuge whatever, would be laying down an immoral and pernicious rule for its citizens.

The American people have reached their present high state of civilization by crowning law king, and every attempt by a state to evade the law is a wrong against that king. In the past we have gloried in the majesty of the law. We have repeated and the school children of the land have repeated for scores of years, this glowing tribute of Hopkinson to the majesty of the law: "It is enough for the judge to say 'It is the opinion of the court' and the uttermost parts of the republic feels and obeys the mandate." Is the sublime sentiment to turn to ashes on our lips by evading the decision of the court and thus refusing to feel and obey the mandate? God forbid.

Is there any reason why the people of our state cannot wait until the courts finally dispose of the great constitutional question involved in this controversy? General Major was reported in the press dispatches a few days ago as stating that Missouri had tremendous wealth and was one of the richest states in the richest valleys in the world. How did it acquire that wealth and riches? Under the operation of the largest freedom of action for its people and for the longest period under no rates at all fixed by law and then for many years under a 3-cent passenger rate and very liberal freight rates.

Panic After Rate Cut.

I presume the most strenuous advocate of state regulation of railroads will admit that there has been no progress in wealth in the state, but on the contrary, a widespread panic has prevailed since the inauguration of the 2-cent and maximum freight rates two years ago, and that there has been more dissatisfaction in that period than any other period of the past. Business has been depressed, scores of thousands of men have been thrown out of work and stocks and bonds and property values generally have depreciated hundreds of millions of dollars.

It may be claimed that adverse legislation did not bring on this state of affairs, but millions of men in the country and among them the most eminent business men and economists, believe that the drastic enactments and the course of the administration of the law by the states and the national government during the last two years was the direct cause of the panic. They destroyed the confidence in the safety of invested capital.

During the winter of 1907, more than 300 measures of the most drastic kind against railroad and other corporations were enacted by the states. This was followed by the attempts of several state administrations to prevent the railroads from resorting to the federal courts for the vindication of their constitutional rights, and I am sorry to say that Missouri was one of them.

Fines Cause Stock Shrinkage.

About the time the national administration, by its course, indicated very clearly that certain great corporations had been selected not for regulation, but destruction. In the summer of 1907, the Standard Oil company was fined $29,000,000 for accepting freight rates that had been in force for over fifteen years with the full knowledge of the government, and in September the Santa Fe road was fined $330,000 for compromising a disputed freight charge, and upon the declaration of the president that the policies he had inaugurated would be carried out, the bottom fell out of the bond and stock market, by which the people lost $3,000,000,000 and 2,000,000 of men their jobs, and the most of them are still out of work.

It may be that these drastic measures did not produce these fearful results, but the fact that the panic and the measures culminated at the same time is strong evidence that they did. This is believed at least by millions of men, and wise statesmanship demands that we calmly and dispassionately investigate the matter and be sure that we have diagnosed the disease properly, before we adopt drastic measures on another theory.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

URGES USE OF BROWN BREAD.

Convincing Arguments Made by English Food Reform League.

A plea for the use of wholemeal bread, especially by those who have the care of children, is made in an influentially signed circular issued by the Bread and Food Reform league of Great Britain.

It is shown from official documents that the annual consumption per head in the United Kingdom of corn, wheat, meal, and flour is nearly 355 pounds, and that in working-class families, with incomes ranging from 21s to 52s a week, two-fifths of the weight of food consumed consists of bread and flour. Bread, it is pointed out, is almost the sole diet of numbers of poor children.

"Owing to the present great distress and general shrinkage of incomes," it is stated, "a supply of nourishing bread is of vital national importance. Chemistry proves that the whole of the wheat grain contains more nutriment than the part usually made into fine white flour." Experiments in Germany are quoted which show that from finely ground wheat meal the body assimilates two and a half times more of the mineral substances which form bones and teeth and which nourish the brain, nerves and tissues, than from fine white flour."

RUMBLINGS OF THE RAIL

MISSOURI PACIFIC WINS A REVERSAL OF WARSAW-SEDALIA CASE.

COACH CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

The supreme court has reversed and remanded the case of the state vs. the Missouri Pacific railroad, the latter having been convicted of not running a regular passenger train every day each way between Sedalia and Warsaw.

The suit was based on an act of 1907, providing that all railroads shall run at least one regular passenger train each way every day over all its lines of railroad.

The proof showed that the company did run a train consisting of engine, combination baggage, express and smoking car, an ordinary passenger coach and two freight cars each way every day between Sedalia and Warsaw and that the train received and discharged passengers at all regular stations.

Business Men Help Katy.

Another manufacturing industry has been gotten for Tulsa, Ok., making a half-dozen concerns landed in the last two months.

The latest is a lamp chimney factory, to employ about 175 persons. It will be located on the M., K. & T., on the East side. All the manufacturing industries obtained of late, with one exception, have been located along the Katy.

The business interests of Tulsa are endeavoring in every way possible to show their appreciation to the railroad in its fight for cheaper shipping rates from eastern shipping points to Oklahoma.

Woman Acts as Flagman.

Persons passing the intersection of Mill and Boonville streets at Springfield, Mo., have been surprised during the past few days at seeing a woman acting as flagman.

The Frisco railroad has a double track on Mill street, and the street car company has double tracks on Boonville street, making the intersection one of the most dangerous here.

E. B. Calvey, who has been flagman at this corner for nine years, has been sick for several days and his wife has taken his place.

FOOD BECOMES TAINTED

YOUR MEALS, INSTEAD OF DIGESTING PROPERLY NOW, FERMENT IN YOUR STOMACH.

DIAPEPSIN REMEDIES ALL OF THIS

All Your Suffering Is Unnecessary and Can Be Relieved and Cured Promptly—You Can Rid Yourself of Stomach Misery Forever.

You haven't Catarrh of the Stomach, or Nervousness, or Gastritis, or Cancer, etc. Prove this by taking Pape's Diapepsin after your very next meal. Convince yourself within five minutes that your actual disease was sour, acid Stomach—Food fermentation—that every bite you ate turned to Stomach gas, Stomach poison and Acid, which makes you feel sick and miserable, producing such symptoms as pain in the pit of the stomach, difficulty in breathing after a meal, Headaches, Belching, Heartburn, Nauseous breath, Water brash, Biliousness, Sour risings, Gas on Stomach and many other bad feelings.

Indigestion is a result, not a cause, of your misery. If the Stomach is sour, your food becomes tainted, and that's why you have these stomach disorders.

Ask your pharmacist to show you a case of Pape's Diapepsin, which costs only 50 cents. Read what this effective Stomach and digestive treatment contains, and how absolutely harmless it must be; how it does for the Stomach what the washing and sun bath do for the churn; absolutely removes every corrupting or tainting element, and will digest all the food you can eat.

Go to your druggist and get some Diapepsin now, then eat anything you want at your next meal, and you will not suffer from indigestion or Stomach trouble. Each bite of food will taste good, and, besides, you will not need liver regulators to keep your intestines and Stomach clean and fresh.

Now and forever rid yourself of the misery of Indigestion and Stomach trouble. Make your meals a pleasure by going to the table with a healthy appetite.

Startling Discovery Follows Examination of Children.

Des Moines, Ia., April 14.—An investigation conducted by the Des Moines Tubercular association has resulted in the discovery that six out of every ten children examined are infected with tuberculosis.

The majority of the cases are incipient, but in many the disease has progressed far.

The association is considering establishing a children's tubercular camp this summer. It is proposed to isolate infected children to prevent a further spread of the disease.

Time That Pat Got Gloriously Even with the Doctor.

Pat had had trouble with his eyes, and a friend having advised him to consult an oculist, he went a few days ago to see Dr. W——, a distinguished specialist, for relief. On his arrival at the doctor's office he found the usual large number of patients in the anteroom awaiting attention, and though he was in a great hurry he was forced to wait several dreary hours before his turn came. He lost and regained his temper several times in the interim, but when all was over and he found himself out upon the street with the half day spent, indignation over the loss of valuable time was the predominant note in his feelings.

"But Oi had me revinge!" he ejaculated with a broad smile, as he told his friend Mike about it afterward. "Oi don't t'ink he'll keep me waitin' again loike thot."

"Phat did ye do to 'um?" asked Mike.

"Sure an' Oi wint back th' next day," said Pat. HAVE STRANGE SOUND TO US.

Peculiar Names Common in English County of Lancashire.

"Lancashire folk," one of them is reminded to tell us, "have their own ideas regarding Christian names, and one of the curious appellations they delight in appears in the London Daily News in an account of the clever way in which a runaway horse was stopped at Preston. The hero's name was Doctor Whittaker, and it is no uncommon one in County Palatine, where fond parents often give the seventh son that courtesy title, which leads to much misunderstanding when he grows up. Another freak is the reduplication of the surname, such combinations as Briggs Briggs, Yates Yates and Fish Fish being fairly frequent.

Compounds of the Sarah Alice, Phoebe Ann and John Henry type are," adds this authority, "greatly in evidence, and both names are always used in addressing the fortunate possessors—so much so that parents will sometimes have two of their offspring christened Sarah, the girls being in their opinion amply distinguished by the fact that one is called Sarah Jane and the other Sarah Alice."

SALOON THOUGHT NO. 121.

Crimes Lessened.

Columbia, Mo., April 3.—Police court records of Columbia show that prohibition has lessened crime here. Saloons were abolished in January, 1908. Since then there has been a decrease of 50 per cent of the number of prosecutions for violations of the city ordinances.

In the year of 1907 when there were saloons in Columbia 357 persons were arrested and charged with intoxication and 273 arrested on other charges. In 1908 when prohibition went into effect, there were only 131 charges of intoxication and 152 charges for other offenses. These figures show a 49 per cent decrease in the number of drunks and a decrease of 44 per cent in the number of other charges.

Not only has the absence of saloons decreased crime, but it has stimulated trade among the merchants. Men who formerly came in Saturday night and spent a part of their earnings for liquor, now spend it for clothing, groceries and other necessities.

"There is no doubt that the absence of saloons in Columbia has lessened crime,' said A. J. Tyson, city jailer. While there is some liquor shipped in, it is taken to the homes. Another reason for fewer arrests is because many of those who are addicted to the habit have gone to towns where there are saloons." THE DRYS.

TARIFF MAKERS EXPOSE

GOVERNOR HARMON, OF OHIO, DECLARES ALLEGED REVISION A SHAM.

DENUNCIATION OF CONGRESS IS BITTER

Only Followers of Democracy's Precepts Will Give the People a Square Deal, He Says in Address Last Night.

New York, April 14.—A protest against what he declared were growing encroachments of special privileges at Washington, especially as embodied in tariff legislation, was the keynote of the address of Governor Judson Harmon, of Ohio, before the Jefferson dinner of the National Democratic club here last night.

Asserting that the reductions in the pending tarin would be but a mockery on the demand for relief, Mr. Harmon declared that relief never would be obtained except under a legislative and executive body following Jeffersonian rules and treating taxation as a means of public revenue and not of private gain.

"Special privileges can take no form, however specious, and assume no garb, not even the flag of the Union," said Judge Harmon, "which can hide it or win favor from the political descendants of Thomas Jefferson. Nor can tolerance of it be won by a real or promised advantage, public or private. It would cost too dear in the end, as witness the tariff taxes and their brood of trust monopolies which have aggravated the natural inequalities in the distribution of wealth and spread harm and discontent among the people."

"The steady tendency since the civil war has been to exalt the federal government at the expense of the state," said the speaker, "one result being the neglect of economy and the embarkation of the government into extravagant enterprises."

He instanced the action of the last congress in appropriating two millions of dollars and the raising of salaries of officials in the face of a growing shortage of revenues.

"Now instead of seeking methods of retrenchment to meet a present confessed deficit of more than a hundred millions, the president and congress are devising additional taxes to exact from the diminished means of the people and proposing to issue bonds besides.

"State officials who would propose such a course would not dare go home to their constituents and forever would be disgraced if they should take it.

"Twelve years of false pretenses have fattened and bred countless monopolies, and it is proposed not to shake off their grip, but to loosen it just a trifle here and there so that the people may not be devoured entirely.

"Old devices are being employed and new ones invented to maintain the favor taxes undiminished, with or without false reduction. Lower rates are to be applied with higher modes of valuation. Cunning phrases, whose effect is known now only to the authors of the bills and a few experts are some of these devices.

"Duties, ostensibly to retaliate on other countries, but really meant to fix the monopolies for our home market, are of this brand, as in the case of the innocent looking clause in the present law, which has made the Standard Oil trust impregnable to competition.

"The wage earners, for whom there is the usual show of deep interest, are not present or represented in the pulling and hauling, now going on to obtain the advantages professed to be for them. The increase caused by the tariff in prices charged to the people of the country will go as it always has gone, to make unnatural profits for the employer whose solicitude for his workman does not even take the form of fair division of the spoils.

"The burdens are being laid, as always, chiefly on the wage earners themselves and other citizens of small means. Nobody who can reason effect from cause, or the future from the past, expects any real relief to the people who consume and therefore have to pay, no matter what the present congress may do or pretend to do.

"Some luckless interests whose pull has grown weaker or been overcome by a counter pull, like the Wood Pulp Paper trust, may, with great ceremony, be anointed with the oil of sacrifice for the salvation of the other, but the reductions, when real, will be a mockery of the cry for relief. Leeches, manna, diamonds, false hair and other necessities of life will not be overcrowded with newcomers on the free list, while the open increases in the charges bid fair to equal if not to exceed the reductions.

"The only real gain will be in the forced and belated confession that the people ought to have relief. But real relief never will be obtained save by a president and congress who enforce Jeffersonian rules and deal with taxation as primarily a means of public revenue and not of private gain."

Judge Harmon attacked the policy of spending hundreds of millions of dollars for a canal at Panama on the part of what he said was a country practically without ships, taxed against the possibility of buying any, and with the only proposed means of encouraging shipping being the payment of direct subsidies to a favored few out of money raised by taxes on all the people.

MAKE A DIVORCE ACTUAL

The One Taken on Trial Has Proved Perfectly Satisfactory.

Boston, April 14.—It is announced that Rev. C. W. Puffer's "trial divorce" has proved satisfactory, at least to Mrs. Puffer, and that she will this spring seek to make it actual.

Mr. Puffer, who was a clergyman of Salem, and his wife separated nearly three years ago, drawing up an agreemen whereby he was to pay her a comfortable stipend for three years.

At the end of that period unless love returned, a legal divorce was to be sought and the clergyman was to pay his wife $7,000 as a quit claim.

Mrs. Puffer, who has been living in Brookline, now allows it to be known that she contemplates a stage career and a divorce as a preliminary.

She has a novel dance in which it is her ambition to shine. Rev. Mr. Puffer, it is said, does not like the turn affairs have taken.

OBLIGING POLICE JUDGE

Raised the Sentence to Two Years at Prisoner's Request.

Philadelphia, Pa., April 14.—Robert Thomas, 35 years old and homeless, found a lodging place yesterday morning when Magistrate Carey thought board and lodging during the three summer months would suffice to cure him of the liquor habit.

"Why don't you keep me six months?" asked Thomas.

"All right," said the judge.

"Make it a year?" requested Thomas.

"A year it is," replied Carey.

"Oh, let it be two," pleaded the homeless one.

"Two years you may have, but that's the limit," obligingly answered the magistrate.

WILL THEY DEFY COURT?

PRESBYTERIANS ORDERED TO TURN CHURCHES OVER TO CUMBERLANDS.

ORDER WENT INTO EFFECT AT NOON TODAY

Loyalists Issue Demand and Trouble of Grave Nature is Expected as the Result of Court's Order in Tennessee.

Nashville, Tenn., April 14.—If the various congregations of the Presbyterian church of the United States of America decline to surrender all the former Cumberland Presbyterian churches in Tennessee at 12 o'clock today, no end of a legal trouble will arise, and probably a more serious situation than that.

Following the decision of the state supreme court last week, declaring the union of the Presbyterian and Cumberland Presbyterian churches illegal, the moderators of the Cumberland Presbyterian church, or loyalists, issued a circular demanding that the union congregations surrender all the churches they now hold by 12 o'clock April 14.

This circular went out Monday and created a disturbance. Leaders of the Unionists or Presbyterian church, U. S. A., yesterday commented freely and in unmistakable terms on this act, and some declared that they would not surrender.

At 8 o'clock last night, however, the congregation at the Arrington Street church voted to turn the property over to the Cumberland, and closed the case so far as that church was concerned.

Others at meetings last night, declined to notice the order from the loyalists, and may take the matter in the courts again.

The case decided by the supreme court was that of the Cumberland Presbyterian church at Shelbyville, Tenn., but by agreement both factions throughout the state were to abide by the decision of the court.

There are ten large churches in Nashville held by the Unionists, and only two of them have been surrendered.

In an interview yesterday John H. Dewitt, of the Unionists, said each case would be acted upon by the courts, as each was an individual situation. He says the church buildings proper belong to the congregations, but that the court has not acted upon the general property in this state, such as the big publishing house in Nashville, Cumberland university in Lebanon and the college at McKinzie. These properties are valued at more than $1,000,000, and the Unionists will at least endeavor to hold them.

Feeling is very bitter here between the two factions, and on many occasions in the past five years armed forces have taken part in church services.

For several months some of the churches were held by men armed with rifles, and personal difficulties have been numerous.

Last year this situation played a prominent part in the state political campaign and mixed in almost every controversy. Not far from Nashville stands a little old church where the Cumberland church was born, and this city has been the headquarters of the church.

Legal talent unlimited has been employed on both sides and the fight has been determined both ways.

In view of this feeling, which has been nursed for so long, many fear trouble in the event the Presbyterians U. S. A. decline to give up the churches today, although the Cumberland leaders state that there will be no trouble save indictment for contempt of court.

Nevada Asylum Officers Elected.

Nevada, Mo., April 14.—The republican board of managers of state hospital for the insane No. 3 met at the hospital yesterday and elected Samuel L. Hackney, of Lamar, steward, and W. H. Hallett, of Nevada, treasurer.

Mr. Hackney is a business man, Mr. Hallett is a lawyer, one of the members of the republican state committee from the Fifteenth district.

PINNED CREPE ON DOORS

At Grand Rapids and Nearly Caused Several Deaths.

Detroit, Mich., April 14.—A repulsive form of practical joking caused several women to faint, and others experienced a shock which they will not soon get over at Grand Rapids last night.

The "joker" pinned a bunch of black crepe of the regulation style used by undertakers to almost every doorpost in two blocks.

In one instance an aged lady was passing the home of her daughter, saw the crepe and fainted on the sidewalk, cutting her head in the fall.

Another man, with a weak heart, saw the crepe pinned to the door of his brother's house and was overcome, having to be taken to a hospital.

The police were notified and observed a man trying to pin the somber design to another house and gave chase. The man made his escape.

SCRATCHED HIS FINGER

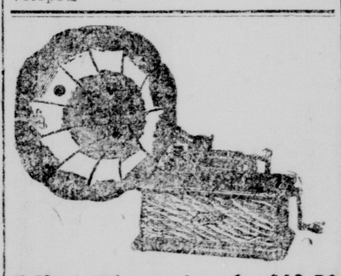

On Dead Dog's Tooth and Victim Dies in Agony of Hydrophobia.

Pittsburg, Pa., April 14.—Thomas Cassidy, a foreman for the West Pennsylvania railroad, died in great agony at the local Pasteur Institute, hydrophobia being the cause of death.

The strange feature of the case is that Cassidy was inoculated with the poison from a dog which was dead, but the body had not cooled off.

The animal was confined to a crate and when it became mad was shot by Cassidy, who hastened to pull the just expired animal out of the crate.

One of his fingers rasped across the teeth of the dog and broke the skin. Nothing was thought of the matter at the time, but hydrophobia quickly developed.

FILLED UP ON BOOZE

Chinaman Did and Wiped Up the Floor With a Jap Merchant.

Detroit, Mich., April 14.—Yee Tang, a Chinese student at the University of Michigan, came into Detroit yesterday wearing the latest things in college clothes, including the correct color in hosiery.

Following out the parental admonitions to conduct himself as much like an American youth as possible, Yee Tang lost no time in becoming acquainted with the shimmer of mahogany and the subtle perfume of alien drinks.

After about two hours of this kind of companionship the sight of a Japanese flag in a tea store was as a red flag unto an enraged bull.

Yee Tang delivered a violent harangue in native Chinese outside the shop, and when the officers collared him he was doing his best to reduce the little Japanese proprietor to subjection.

At the station house the officer was unable to state just what epithets Tee Yang had used, but he was sure his remarks were not fit for a lady to hear.

JAIL FOR SMOKING A PIPE

Kansas Youth Declares Parents Gave Him Permission.

Galena, Kas., April 14.—Because Ace Rains, 18 years old, son of the postmaster here, smoked a pipe yesterday he was taken to jail. He will face trial Thursday on the charge of violating the newly enacted Kansas law prohibting minors from smoking.

Rains smoked all right. He says so himself, but declares his parent gave him permission to smoke all he wanted to. He made the mistake of not hiding behind the woodshed, however, during his smoke. He walked along the main street of the town puffing away, and was taken in charge by the police.

The Galena authorities say the law which also forbids selling tobacco to minors will be strictly enforced.

An Echo From the Recent Election in St. Louis.

"Col." Ed Butler got back to town the other day after an absence of several weeks. This is the story, says the St. Louis Post-Dispatch.

A friend called the ex-boss' attention to the republican landslide.

"Uh-huh," grunted Butler. "Well, what do the boys think of Handsome Harry now; what kind of a leader do they think he is, eh?"

"Why, Colonel, Hawes wasn't in the campaign. He's been down in New Orleans making a million in gas."

"Wha-at? Wasn't IN the campaign, made a MILLION" — —

The Colonel was moved beyond further utterance.

UNDER THIS PLAN THERE WILL BE ONLY NINE VARIOUS DENOMINATIONS.

THE PORTRAITS THAT THEY WILL CARRY

Classes of Notes Will Be Differentiated by Color and Other Distinguishing Marks Arranged By "Uncle Sam."

Washington, April 14.—Assistant Secretary of the Treasury Coolidge has approved a plan for systematizing designs for various denominations. Under the new plan there will be but nine.

For instance, there are now two designs for $5 notes—the silver certificate, with the head of an Indian chief, and a note with the portrait of Andrew Jackson. The $10 gold certificate carries a portrait of Michael Hillegas, the first treasurer of the United States. The silver certificate of the same denomination carries the portrait of Thomas A. Hendricks; the $10 greenback a buffalo. There is equal variety in the other denominations.

Under the plan all classes of notes of the same denomination will carry the same portrait, and no portrait will appear on the notes of more than one denomination.

The $1 silver certificate will carry the portrait of Washington and the $2 silver certificate the portrait of Jefferson. The $5 note, whether silver certificate or greenback, will carry the portrait of Lincoln; the $10 gold and silver certificates and notes that of Cleveland; the $20 that of Jackson; the $50 that of Grant; the $100 that of Franklin, the $500 that of Salmon P. Chase and the $1,000 that of Alexander Hamilton.

The portraits of Hillegas, Monroe, Silas Wright, Lewis, Clark, Mansfield and others, will be eliminated. The eagle, the Indian head and the buffalo, which have proved to be easily counterfeited, also will disappear. All duplications will be done away with. The classes of notes will be differentiated by color and the other distinguishing marks. The new system of notes, it is believed, will tend to discourage counterfeiting

"JIM" RUNS A BIG BLUFF

Ex-Champion Jeffries Stalling for Financial Gain.

New York, April 14.—It is gradually dawning upon the sporting public that Jeffries will never enter the ring again. Delaney, who is decidedly bitter in his feelings toward the boiler maker, says that Jeffries, if he thought he had to fight anybody again, would take to the woods.

Meanwhile, it is said, Jeffries thinks that by stalling along without declaring himself he can get another twenty-weeks' engagement when his present contract expires. Sam Berger, who is now the big fellow's manager, has a different opinion, however, and is anxious to have Jeffries say that he will fight once more.

Springfield, Mo., April 14.—The Missouri Christian Lectureship association began a three days' session here yesterday. Christian ministers are present from every large city of the state. A feature of the opening session was an address by Rev. P. E. McFarland, of Kansas City, secretary of the Brotherhood of the disciples of Christ.

In discussing the subject, "The Men's Brotherhood Movement," Mr. McFarland said the organization is not an "associaton for sissies and mollycoddles, but will afford a scope for the activities of red-blooded men."

"In many communites," the speaked said, "the church is organized on a petticoat basis, and the women are left alone to do the work. It is high time the men were being required to perform their duty."

WANTS VETERANS' REUNION

Confederate Veterans Asked to Meet There in August.

Springfield, Mo., April 14.—The local camp of the United Confederate Veterans has requested the executive committee of the state organization to give Springfield the annual reunion and encampment.

If the wishes of the local camp are complied with the reunion in August will mark the beginning of an active campaign to induce congress to make the battlefield a national park.

Survivors of the Union and Confederate armies who participated in this engagement are united in an effort to get congress to pass an appropriation for the proposed park.

THE WHEAT SITUATION

It Has Disturbed the Mills in Southwest Section.

Kansas City, Mo., April 14.—The advices from day to day from southwest milling points are confirming the sensational statements with regard to the flour situation made during the last few weeks.

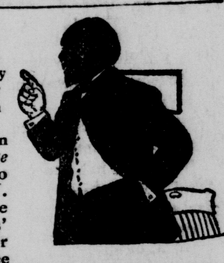

It is estimated by conservative authorities in the local flour trade that at least three-quarters of the mills throughout this territory are running on barely enough capacity to supply their own neighborhood, while reports multiply of mils that have shut down completely because the price of cash wheat is prohibitve.

In any event it is evident that little more Kansas flour is to be had on the New York market after present spot supplies are exhausted, as such mills as still have sufficient wheat to keep runnig are fully 75c a barrel higher in their asking prices than the highest quotations in New York for a similar flour.

WOMAN SAVES DODSON AGAIN

Fifteen Attempts to Make Missouri Town Wet Fails.

Kansas City, Mo., April 14.—A woman, Mrs. C. H. McCrackin, has defeated fifteen attempts in the last five years to place a saloon in the village of Dodson, twenty miles south of Kansas City.

Her latest victory was achieved yesterday, when the county court, acting on evidence obtained by her, again refused to issue a license, when the latest applicant recently filed a petition with the court.

Mrs. McCracken mounted her horse and rode through the township procuring signers to a remonstrance. She gathered the information that many names on the application were forgeries.

"As long as I live and am able to travel," smiled Mrs. McCracken, "there will never be a saloon in Dodson."

CONCERTS BY MRS. TAFT

TODAY INAUGURATED A NOVEL PLAN THAT WILL REACH WIDER CIRCLE.

MUSICALES, WEDNESDAY AND SATURDAY

Marine Band Furnishes the Music—Concerts to Be Given Twice Each Week During the Spring and Summer.

Washington, D. C., April 14.—Mrs. Taft is showing her interest in official society here in many ways, but she inaugurated today a plan that has much that is novel about it and will reach a wider circle. This is the giving of concerts on the Speedway, in that part of the public grounds south of the White House known as Potomac park.

These concerts are to be given each Wednesday and Saturday afternoons during the spring and summer and will take the place of the concerts that have been given in the south grounds of the White house.

The first one is set for this afternoon. Mrs. Taft and the president intend to attend them personally. The music is played by the Marine band. A permanent grand stand has been built and plans for it were made under the supervision of Major Spencer Cosby, U. S. A., superintendent of public buildings and grounds.

It is expected that the concerts will be a great social feature of the summer life in Washington and the plan has received general praise. The Speedway has received more attention from the park commission than any other park system here for a year or more, and everything has been done in the way of drainage, laying out of roads and beautifying of the grounds generally, until now it is one of the most popular rendezvous for driving in or near the capital.

Mrs. Taft has spent much time in travel and has been in the Philippines and in Cuba and knows the pleasure of an hour or so in the Lunetta in Manila, or in the Malecon in Havana. Hyde park in London or the court of honor at Florence, and she proposes to make Washington's Speedway as charming a place as any of these to while away the late afternoons.

One of the charming features of Manila is the concerts held several times weekly on the Lunetta in the cool of the evening. "Everyone who is anyone" in the capital of the Philippines rides or drives on the Lunetta in the cool of the evening hours in which the band plays, and it is one of the most picturesque social redezvous in the world.

Mrs. Taft's action may lead the way to a more general utilization by the public of the parks along the Potomac, which are the basis of the new scheme for the beautification of the capital, but which are rather out of the beaten paths of fashion.

Mrs. Taft, with her younger son, Master Charlie Taft, who is home from school for Easter, this afternoon attended a lecture given by Fred Niblo in the Columbia theater on his travels in Russia. Master Charlie had three or four of his young friends with him and the party was a merry one. Robert Taft also has come home for Easter, and Miss Helen Taft is expected from Byrn Mawr in a day or two.

FIGHT FOR VILLAGE BELLE

Six Foreigners Injured, Two Probably Fatally.

Pittsburg, Pa., April 14.—In a riot at Manifold, a mining town, yesterday, six foreigners were seriously injured, two of them probably fatally. Daggers and revolvers were used.

The six injured men were suitors for the hand of Lizzie Mozeka, the belle of the settlement. The father, to help the lovers, proposed drawing lots to decide the question. A foreigner named Chenzo won, but a free-for-all fight started, and all the lovers were seriously injured. The police have arrested eight persons.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints, causing rheumatism.

KILLED OR NOT KILLED

THAT IS THE QUESTION TO BE DECIDED REGARDING FRUIT CROP.

WHAT GEORGETOWN MAN HAS TO SAY TODAY

Judge David Kinsey Says the Crop Has Not Been Badly Damaged—Mr. L. A. Goodman Entertains Far Different View.

(From Wednesday's Daily.)

H. H. Meier, of Georgetown, fruit grower and truck raiser, informs the Democrat-Sentinel that the freeze of Monday night did not kill much of the fruit.

"Some of the early peaches were killed all right enough," said Mr. Meier, "but unless we have more freezing weather we will have plenty of peaches anyhow.

"Cherries are all right, and quite likely the pears. I live up on the hill, and none of my garden truck was damaged.

Judge David Kinsey, who poses as an expert, says the peach crop is all right and very few buds were killed by the freeze of Monday night. He predicts a bumper crop of peaches and of all other kinds of fruit unless it is killed after this date.

The Kansas City Journal this morning had the following regarding the fruit crop:

Severe weather Monday night and Tuesday morning just about ended all prospects for peaches in this vicinity, according to L. A. Goodman, secretary of the state horticultural society. The peach crop was in poor condition before the frost Monday night, and buds which until then had been intact suffered greatly. In Kansas City where the trees were sheltered by houses and buildings the damage was not so great, but in the orchards near Liberty and Parkville the Elberta peaches and several other varieties were nearly wiped out.

Pears and plums also came in for their share of damage from the frost, though the pear and plum crops will be good, so far as can be determined at the present time. The berry crops, which will be poor at best, according to the reports of the horticultural society, were not injured

CASTRO'S ST. HELENA JUST A LONG DROP

MAN WHO LIVED OFF GIRL

HORRIBLE EXAMPLE IS MADE OF HIM BY A JUDGE IN KANSAS CITY, MO.

WE HAVE THIS CLASS IN SEDALIA ALSO

Judge Kyle Fines Thomas Rattan $1,000 for His Treatment of Nineteen-Year-Old Virginia Reeder.

Kansas City, Mo., April 14.—Judge Harry G. Kyle in Central police court yesterday made an example of Thomas Rattan, alleged professional vagrant, who not only has been living off earnings of unfortunate women, but has promoted their interests to increase his income. Rattan was fined $500 on each of two charges, in default of which he will spend the next year in the workhouse.

The arrest resulted from Virginia Reeder, 19 years old, former resident of Excelsior Springs, being caught in the act of accosting strange men on Grand avenue near Twelfth street Monday night.

Realizing her predicament, the girl broke down and told the policemen she was being compelled to lead the life of shame by a man whom she had met a short time before at her home. She then substantiated her statement by pointing Rattan out. Both were arrested.

Judge Kyle had the prisoners arraigned individually. In that manner he succeeded in bringing forth a story horrible in detail from the unfortunate girl.

She said she had met and fell in love with Rattan in Excelsior Springs. Shortly afterwards she was induced to come to Kansas City, where later she was compelled to follow a life of shame to support herself and Rattan.

Rattan denied everything, saying he worked steadily and provided for the girl. The evidence was against him, however, and the severe sentence was meted out, much to the satisfaction of the crowded court room. The girl was turned over to Humane Officer W. H. Gibbons.

THE "DRYS" SEE VICTORY

REPUBLICANS AND DEMOCRATS PREDICT THE HOUSE WILL ADOPT AMENDMENT.

SEVENTY-TWO VOTES NEEDED TO PASS IT

St. Louis, Kansas City and St. Joseph Delegations Will Solidly Oppose Submission—Comes Up at 3 O'clock P. M. Today.

Jefferson City, Mo., April 14.—The house, late today, by a vote of 86 to 51, voted in favor of submitting a constitutional amendment in November, 1910, providing for state-wide prohibition in Missouri, January 1, 1913. The senate is almost certain to take similar action.

Victory Was Anticipated.

Jefferson City, Mo., April 14.—This morning the prediction of republican and democratic house leaders is that the prohibition amendment will be adopted in that body when it comes up at 3 o'clock this afternoon.

Figures are given by some of the members. Representative Brassfield, one of the conservative repuolican members, counts on twenty-eight or thirty republicans who will vote for the amendment, while Representative Lloyd is of the opinion that not more than twenty-one republicans will vote for submission.

Representative Barker says that not fewer than forty-five democrats will support the prohibition resolution. Both sides have been counting noses, and it is expected that neither the Brassfield figures nor those by Barker will be far from the actual number of votes which the amendment will get from the respective parties.

It will require seventy-two votes to carry. If the democrats cast forty-five and the republicans twenty-eight the resolution is safe, with one vote to spare. . The St. Louis delegation and that from Kansas City and St. Joseph will solidly oppose the amendment.

The brewing and liquor interests are alarmed. If the amendment could have been submitted with a tax rider they believe it would fail of adoption. But they are making no noise in their opposition.

The senate, according to Senators McDavid and Mayer, will submit prohibition. They figure eighteen democratic senators and three republican senators will certainly support the amendment. The senate committee on constitutional amendments is awaiting action in the house before reporting out the amendment.

FOLK RETIRED ON $100

AFTER SETTLING AFFAIRS AT CAPITAL HE HAD HARDLY THAT SUM LEFT.

MR. HAWKINS, OF DUNKLIN, TELLS STORY

He Advocates $5,000 Raise in Executive's Salary—Wants Increase Himself, and So Do Many Others, He Says.

Jefferson City, April 14.— There is a strong sentiment among Missouri legislators in favor of increasing the salary of the governor from $5,000 to $10,000 a year. Mr. Hawkins, of Dunklin, said:

"Boys, I am in favor of increasing the pay of every state official who holds an important position. None of them is paid enough. We do not get enough ourselves!

"But we can not increase all the salaries, so I say let Governor Hadley practice economy along with the rest of us until the finances of the state are in better shape.

"I am in favor of an increase for the governor, as I know that Joe Folk went back to St. Louis with considerably less than $100 in his pocket after settling his affairs in Jefferson City at the end of his term.

"This is not right, but I do not see how we can increase the salary of one official and leave out all the others."

Then the question of a new state capitol was taken up.

"They say we can spend $5,000,000 for a new building through the agency of a bond issue without it costing the people anything," said Mr. Hawkins. "I have not been able to figure it out and stump speakers will have a hard time convincing anyone that the state can spend $5,000,000 without the people feeling a tug.

"If we should pass the capitol resolution and the people would adopt it, I would not be surprised to see the new structure cost $15,000,000, instead of one-third that amount."

One representative suggests that a new wing be added to the east side of the building and give up the idea of a new structure. Another said that the contractor who built the north and south wings said that the foundations would easily support two more stories.

Still another suggested that $100,000 could be profitably spent in cutting through several entrances to the basement on the ground level, the installation of elevators and the like, but none wanted to spend millions for a new building.

THE NEWSPAPERS AND THE LIQUOR QUESTION.

The Rev. Dr. David James Burrell asserted from his pulpit on Sunday evening that the newspapers can represent only one side of the Sunday saloon case, says the New York World.

"You have not to look far to see the reason," said he. "Just open your newspaper tomorrow morning and see the investment of the liquor men in its advertising columns."

Those readers who, taking the preacher at his word, looked in the World on Monday, found 70¼ columns of advertising, or 1,855 inches. Of this total 7 inches were devoted to liquor advertising—the card of a wholesale liquor house.

The Times, with 51¾ columns of advertising, gave six inches to whisky and wine, while the Herald ran about 51½ columns with a 5¼ inch advertisement of a brand of beer.

The Press boomed a burgundy to the extent of three inches in 21½ columns, and the venerable Tribune had the three-quarter inch card of a champagne house lurking amid its 18¼ columns of business.

The esteemed Sun presented a horrible example of advertising two kinds of beer, one whisky and one burgundy—about one column out of its 30½ columns of commercialism.

Altogether, seven morning newspapers presented 294¾ columns of advertising, of which the liquor business occupied less than two and a quarter columns, or about seven-tenths of 1 per cent.

Now, Dr. Burrell is a preacher for whom New York has learned to entertain the highest respect. He is a man of kindly instincts. His sincerity is beyond question. He has not been known as a demagogue or a mountebank of the pulpit.

On the ground of good judgment, we are sure he does not believe the press of New York has sold its soul for forty-four inches of advertising.

Yet, like many other opponents of a rational Sunday law, his prejudices are so strong that he can not bring himself to attribute honest motives to anybody with whom he disagrees.

THE COMMISSION PLAN.

The state of Illinois is taking the first step towards giving its cities the commission form of government, and there are now bills before both the house and the senate providing for the necessary legal steps, and strong interests are at work endeavoring to secure the passage of the measures.

The idea of this system of government is to reduce the municipal affairs of cities to a business basis, and to eliminate party politics and the system of ward representation. As the Democrat-Sentinel has said so often, it is a well known fact that in most cities of any consequence throughout the United States the present form of city government has many serious faults, not the least of which is its extravagant system of spending the people's money.

It is claimed for the commission plan that under it the affairs of municipalities can be much more economically managed than under the present system, and that the interests and rights of the people are more carefully safeguarded from every standpoint.

Briefly, there are five essential features of the Illinois measure—the elimination of the ward boundaries, the abolition of party politics in city affairs, and the placing within the power of the people the right to initiate legislation enacted by city councils and to recall city officials who prove incompetent or unworthy.

The bill provides for the election of a mayor and four commissioners who shall be voted on by the people at large. Each one of the members of the council is to be superintendent of a municipal department. For instance, the superintendent of public health and safety would have charge of the police, fire and health departments. The superintendent of public works would have charge of the street department, etc. It is claimed that under such an arrangement individual responsibility is definitely fixed, and every public official is placed upon his honor to produce the best possible results with the smallest possible expenditure in his department.

Des Moines and Cedar Rapids, Ia., are now operating under the plan. Des Moines has just closed its first fiscal year under the new system, and reports that come from that city show that remarkable improvement has been made in every department. A year ago when that city closed its books it was $180,000 in debt; this year it has $20,000 to the good, a clear gain of $200,000 over the preceding year. The Illinois measure, now in the legislature, is, in all its essential features, like the Des Moines plan

The deeds of Doan's Kidney Pills,
For Sedalia kidney sufferers,
Have made their local reputation.

Proof lies in the testimony of Sedalia people who have been cured to stay cured.

Mrs. William Ricks, 605 West Fifth street, Sedalia, Mo., says: "I have used Doan's Kidney Pills and can say that they did me a world of good. I had kidney trouble and suffered a great deal from pains and a weakness in my back and hips. Doan's Kidney Pills cured me and I have had no return of the trouble since." (Statement given in 1901.)

Time Is the Test.

On October 16, 1908, Mrs. Ricks said: "I still think highly of Doan's Kidney Pills, as I have had no return of my former trouble in over seven years. I gladly re-endorse this remedy."

Death of Mr. Burr's Father.

A. D. Burr, deputy county clerk of the district court at Lincoln, Neb., and father of M. D. Burr, the fire insurance agent of this city, died suddenly last Saturday at his home at Lincoln, after an illness of twenty-four hours. Death was due to heart trouble.

Besides the son living here, deceased leaves a daughter in Chicago and a son at Norfolk.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints, causing rheumatism.

IN THE GRIP OF FLAMES

ROCHESTER, N. Y., ATTACKED BY TWO DSASTROUS FIRES ALMOST SIMULTANEOUSLY.

DAMAGES ARE OVER A MILLION ALREADY

At 3 O'clock the Conflagrations Were Still Unchecked and Were Sweeping All Before Them—Help Asked From Other Cities.

Rochester, N. Y., April 13.-- The city of Rochester appears to be at the mercy of two alarming fires, which are raging simultaneously in different sections of the city. At 2 o'clock this afternoon the fires were still spreading, and the loss had already amounted to a million dollars.

The Rochester militia is on duty in the streets, and help has been summoned from Buffalo and Syracuse.

The fire broke out in the four-story Selden building at the corner of Bibbs and Main streets. The flames leaped from there to St. Peter's church in Grove street, and then to the big Jewish synagogue. An apartment house on Grove street, valued at $100,000, was swept away, and the flames then attacked a score of residences on that and adjoining streets, and are now spreading to others. Numerous houses are burning without a single stream of water to check the fire.

About the same time a fire broke out in the First Reformed church on Nassau street, in another section of the city about a mile away. Only one fire company could be spared for this fire and the church soon fell a prey to the flames, which spread to adjoining residences and are now sweeping the street.

A BABY WEIGHS 120 LBS

INFANT AT PITTSBURG, PENNSLYVANIA, IS ONLY THREE MONTHS OF AGE.

ON EXHIBITION AT TEN DOLLARS A WEEK

Mother Weighs Only 200 Pounds and Finds It Difficult Matter to Handle the Infant—Case Is Remarkable.

Pittsburg, Pa., April 12.—"The biggest baby in the world" lives at 1617 Washington avenue, in this city. He is John Wilson Webb, 3 months old, and weighs 120 pounds. His mother, who weighs 200 pounds, finds it difficult to carry the baby jumbo around in her arms, but says that every day she handles him her strength increases.

She occasionally takes John Wilson across her lap and applies the maternal slipper, but confesses that it is hard work.

Whenever Mrs. Webb and her 120-pound baby appear upon the streets they cause a blockade of traffic.

John Wilson has been in almost perfect health since his birth. His only sickness was a mild case of measles, which reduced his weight merely a pound or two. He cries sometimes, but so loudly that persons in the vicinity who hear him imagine a riot is in progress.

Mrs. Wilson is a widow and her infant son contributes to her support. Sometimes he earns $10 a day in public exhibitions as "The Biggest Baby in the World." The father, who died recently, weighed about 250 pounds.

KANSAN HAS FREAK COLT

Has Only Three Legs Upon Which It Navigates With Ease.

Marysville, Kas., April 13.—Homer Hightower, of this city, who recently moved here from Western Kansas, has a freak colt.

The colt was foaled at Webster, Kas., June 27, 1908, and is of almost the same size as all colts of its age, considering the type of its progenitors. It has but three sound legs, the two hind ones and the right front leg.

In place of the other front leg is a small appendage, probably a foot in length, in the shape of the lower part of the hind leg of a large jackrabbit, and the foot thereon is fashioned like that of a rabbit.

The animal appears well and hearty and is perfectly able to stand upon and navigate with ease on its three good legs, although not as rapidly as had it been properly formed.

HURT 30 IN A COLLISION

TROLLEY CARS ON A CHICAGO SUBURBAN ROAD BADLY TELESCOPED.

THE CRASH COMES AT VERY HIGH SPEED

Of Twenty Passengers on One Train Only One Escapes Injury—Eight in Gary Hospital, but All Will Recover.

Gary, Ind., April 13.—Ten men were seriously injured and a score badly hurt in a head-on collision on the Chicago, Lake Shore and South Bend Interurban line, two miles west of Gary, last afternoon.

Only one passenger on the east-bound car, which contained twenty persons, who boarded it at Hammond, escaped without injury.

The crash came as the east-bound car was running down grade at high speed from the elevated crossing over the Joliet cut off. The front ends of the two cars were telescoped when they struck.

Most of the male passengers were crowded in the smoking sections back of the motormen, and it was here that the most serious injuries resulted.

A relief car was sent from Gary and ambulances were in waiting when it arrived here with the injured. Eight of the most seriously hurt were hurried to the hospitals here, where it was reported all would recover. All the seriously injured were from Indiana points and Chicago.

A GIRL SEEKING DAMAGES

ILLINOIS BELLE WANTS $15,000 FROM AN OWNER OF A TEXAS RANCH.

SPENT $500 FOR A WEDDING TROSSEAU

Was to Have Been Married December 16, But On the 15th Bride-to-Be Received a Letter Declaring Engagement Off.

Freeport, Ill., April 12.—Miss Cora Healy, the belle of Freeport, jilted on the eve of her wedding to Joseph Sneed, a wealthy young ranch owner of Texas, seeks financial balm for the laceration of her heart strings in the sum of $15,000. The suit was filed in Amarillo, Texas.

While on a visit to friends in Texas during the summer vacation last year, she became acquainted with young Sneed, the acquaintance soon ripening into love, Miss Healy says, and Mr. Sneed proposed marriage and was accepted. The date for the wedding was set for December 16, 1908.

Miss Healy, on her return, announced her engagement to her family and friends. She spent $500 preparing her wedding trousseau, she says. Her fiance was expected to arrive in Freeport a day or so before the wedding. On December 15, the day before the wedding, Sneed, in Texas, wrote his fiancee asking a postponement of the marriage.

Communications by wire and mail followed, and Sneed finally declared he did not love Miss Healy and that the engagement was broken.

HAD RIOTOUS CELEBRATION

In Constantinople After Sultan Granted Soldiers' Demands.

Constantinople, April 14.—The city is quiet today, although the soldiers indulged in a riotous celebration last night, after the sultan had granted all their demands. It was officially confiremd today that the minister of justice was killed and the minister of marine wounded yesterday.

No definite announcement of the formation of a new cabinet has been made yet, and as a result there is a renewal of public anxiety.

The soldiers still appear to be in an ugly mood, and circulate through the streets firing their rifles. Bands of students are also parading.

Woman Acts as Flagman.

Persons passing the intersection of Mill and Boonville streets at Springfield, Mo., have been surprised during the past few days at seeing a woman acting as flagman.

The Frisco railroad has a double track on Mill street, and the street car company has double tracks on Boonville street, making the intersection one of the most dangerous here.

E. B. Calvey, who has been flagman at this corner for nine years, has been sick for several days and his wife has taken his place.

St. Louis, Mo., April 12.—Mrs. Mattie B. Terhune testified that she thought her charge of adultery against C. J. Terhune, the Railroad Y. M. C. A. night secretary, suing her for divorce, meant hugging and kissing only.

When informed adultery meant conduct more serious she withdrew the charge. Mrs. Terhune said she caught her husband and her aunt in loving embrace, and that he had made improper suggestions to her sister.

EARLY PEACHES KILLED

SO WERE PEARS AND THE TRUCK IN THE GARDENS MORE ADVANCED.

THESE ARE REPORTS SUBMITED TODAY

There Were a Few Flakes of Snow Monday Afternoon—Mercury Registered 40 at 6 P. M. and 31 at 5 A. M. Today.

(From Tuesday's Daily.)

The Democrat-Sentinel today called up a number of farmers and fruit-growers by 'phone, and the general report by them was that the freeze last night had killed nearly if not all of the early peaches, and also pears and early garden truck.

The rain that fell nearly all of yesterday was followed by a few flecks of snow late in the afternoon and a lowering thermometer, the mercury at 6 o'clock registering 40 degrees above zero.

At 5 o'clock this morning it was 31 above zero, and at 7 a. m. 32 above zero, which latter is the freezing point.

It was cloudy the early part of the night, but it cleared off later and there was a heavy frost. Had it remained cloudy, fruit growers say, the fruit crop would not have been so seriously damaged.

The exact extent of the freeze can not be told at this writing. Some of the people interrogated think possibly not all of the early peaches were killed, while others do not see how they could have escaped, when ice as thick as an ordinary pane of glass was frozen in tubs that stood in the open.

The University Missourian, published at Columbia, had the following on crop conditions in the issue of Monday afternoon:

The peach buds in full bloom were killed by the cold Saturday morning, when the temperature fell to 27.4 degrees above zero, according to W. H. Chandler, of the department of horticulture.

"The peach crop will be light this year in this part of the state," said Mr. Chandler. "Only the most hardy peaches survived the January freeze, and fully a third of these buds were killed Saturday. The plums are not yet killed. The apples will not be in bloom for two weeks, and I fell sure we will have an apple crop. The odds are three to one for a good apple harvest next fall."

THE MIDNIGHT SALOONS

THOSE THAT KEEP OPEN FROM THAT HOUR UNTIL 1 A. M. ON MONDAYS.

THIS IS NOT A NEW THING IN SEDALIA

Practice Has Never Been Questioned Here, but a Ruling to That Effect in St. Louis Has Caused a Decided Sensation.

The keeping open of saloons in St. Louis between the hours of 12 o'clock, midnight, and 1 o'clock a. m. on Monday may be something new in that city, but it has long been the practice with several saloons in Sedalia, especially with those located near the Missouri Pacific depot.

The practice has never been questioned here, but the ruling of Excise Commissioner Caulfield in St. Louis has caused quite a sensation there and at the state capital. A Jefferson City dispatch says:

"Excise Commissioner Caulfield's decision to allow the saloons in St. Louis to open between midnight Sunday and 1 a. m. Monday has caused dissatisfaction among legislative leaders who are fighting the constitutional amendment proposing state-wide prohibition. It is understood, too, that Caulfield's action is not entirely approved by the administration.

"Governor Hadley last afternoon addressed a communication to the excise commissioner, the purport of which he refused to make public.

"Although Governor Hadley is disinclined to say anything that might be construed as even a mild criticism of the new excise edict, it is well known, his friends say, that he favors the strictest regulation of saloons as a means to check the growing wave of prohibition. For this reason it is said he is anxious to be assured that Mr. Caulfield's midnight opening order is justified on legal and moral grounds.

"The prohibition champions say the Caulfield opening has strengthened them materially.

"It is reported that one of their legislative representatives has prepared a resolution asking by what authority the St. Louis excise commissioner extends this privilege to St. Louis saloonkeepers in view of the fact that his predecessor, Thomas E. Mulvihill, ruled that the saloons must close and remain closed from midnight Saturday until 5 a. m. Monday."

Another Jefferson City dispatch terday introduced a resolution calling attention to the fact that Henry S. Caulfield, excise commissioner, had so ruled in St. Louis that an hour's respite from the aridity prevailing on Sunday was now being enjoyed, and calling for an opinion from the attorney general 'as to the legality of the excise commissioner's ruling and whether, under the law governing his office, he has a right to permit saloons to open between midnight Sunday and 1 a. m. Monday.'

"Representative Emerson said the administration of Mr. Caulfield's office was nothing with which the legislature could concern itself and moved to table the resolution. That was its fate."

FORMER SHOPMEN HERE

ARRESTED IN KANSAS CITY ON THE SERIOUS CHARGE OF COUNTERFEITING.

THE TOOLS WERE FOUND IN THEIR ROOM

One of the Accused Was Not Captured Until After a Long Chase—Deny Being Engaged in Making of Bogus Money.

John F. Burns and Charles Adams, former employes of the Missouri Pacific shops here, were arrested in Kansas City Saturday and are being held to answer the charge of counterfeiting.

Burns gave his home as Westfield, Mass., and Adams said he lived in Syracuse, N. Y. It has not been found that either of the men attempted to pass the "queer" money.

The men were found in the back room of a house at 1732 Oak street. They claim they were merely trying to make a medallion.

At the first intimation of danger, Burns, who was engaged in preparing the molds, made a dash for the door, ran to the stairs and jumped to the floor below.

Detective Walsh followed him, but by a mistep, lost his footing and fell from the top step to the bottom, injuring h. leg. Burns was captured after a long chase. Adams was taken without trouble.

In the room was found two plaster molds, one with the impression of a silver "quarter" and the other a "half dollar," together with eight counterfeit half dollars. The coins were fair imitations, but lacked weight and "ringing" qualities. The edges of the coins were still in the rough, just as they were taken out of the moulds.

Files, chisels and odd-shaped knives, together with a scale, were found among the paraphernalia confiscated. The scale was a crude affair, made with copper wire and the tops of two tin cans. The can tops served as trays, the whole dependent from a nail driven into an upright stick of wood and fastened to a pedestal.

According to Burns and Adams, the scale was used to weigh the ingredients for the alloy.

"We got our ideas from books in the library," said Burns. "In passing a jewelry store on Main street about three weeks ago we saw a medallion of Kansas City displayed in a window. The price was $1.75, and we got an idea that if we could reproduce that medallion for 30 or 40 cents we could make money by the sale of them.

"Not wishing to go to the expense of having a die made, we used the coins, as the book from which we got our information stated that coins could be used for experimenting purposes. We conducted our experiments openly and made no effort to conceal our actions. Mrs. Nellie Evett, the landlady at 1732 Oak street, saw the tools and the moulds in the room. Our door was never locked and anyone who wanted to could come in at any time."

Mrs. Evett said she did not know in what work the men were engaged. She declared that she had not been in their room but once or twice since they took it about six weeks ago. She said, further, that Burns and Adams had paid her but one week's rent since they came.

"I knew they were out of work," said she, "and I felt sorry for them. They seemed to be gentlemanly, good boys, and I know they tried to find something to do to earn an honest living."

Captain Flahive called Burns into his private office Saturday afternoon while Mrs. Evett was present. At the end of the interview Burns took an affectionate leave of his former landlady, pressing her hand and kissing her. Following this, Mrs. Evett was subjected to a rigid cross-examination, but convinced of her innocence and ignorance of details regarding the work carried on in her rooms, Captain Flahive allowed her to go.

CASTRO MERELY "FAKING"

Former Venezuela President Was Not as Ill as He Claimed.

Hearst News Service.

Port de France, Martinique, April 10.—The governor today appointed a doctor to examine Cipriano Castro, and ascertain if the former Venezuelan president's health permitted of his deportation.

$1600 EASTER OFFERING

SUNDAY WAS CERTAINLY A BIG DAY AT THE FIRST CHRISTIAN CHURCH.

GAVE $2001 TO ST. LOUIS ORPHANS' HOME

This Was Done by the Sunday School—The Church Raised $1,600 in Cash and Pledges—Seven Additions to Membership

(From Monday's Daily.)

Yesterday was a great day at the First Christian church, of which the Rev. A. W. Kokendoffer is pastor. The Bible school, under the efficient leadership of W. W. Herold and his assistants, passed the 400 mark. The orchestra, directed by Mr. Pritchard, was at its best. Mr. Harold Hoffman sang an Easter hymn at this service. The offering by classes, to be sent to the orphans' home at St. Louis was $200. This was the best offering in the history of this school.

The regular church services were morning and afternoon. Mrs. Quisenberry had charge of the music and Prof. Farris was at the organ.

The afternoon musical program was elaborate and especially fine. At the morning service there were seven additions to the church, five of these by confession of faith.

The special item of the morning service was the raising of about $1600 in cash and pledges to meet street paving, a little deficit in current expenses and for missions.

These included state, home, foreign and the work of the women under the C. W. B. M. and Young ladies' circle.

The church is to be congratulated upon its successful work and for the very joyous worship, in attendance, song and liberality for the Easter service.

FORTY YEARS IN THE "PEN"

A. H. Ray Sentenced for the Killing of "Bunch" O'Neill.

(From Monday's Daily.)

Alvin H. Ray, aged 32, pleaded guilty to murder in the second degree when arraigned before Judge Louis Hoffman in criminal court today, and was sentenced to forty years in the state penitentiary.

Ray, who occupied a chair in the row of seats directly in front of the court desk, never moved a muscle or winked an eye when Judge Hoffman, evidently moved by the imposition of such a sentence, sternly called to the court clerk, "I'll fix the punishment at forty years, and let the sentence be accordingly."

Attorney W. G. Lynch, who represented Ray, previously withdrew the prisoner's plea of not guilty to murder in the first degree, and after the punishment had been fixed interceded with the judge to lessen the sentence to thirty years in the penitentiary, stating that thereby hope might be entertained for executive clemency later.

"The crime was a most inexcusable one," Judge Hoffman remarked, as he refused to lessen the punishment, and hearing handcuffs and guarded by Deputy Sheriffs Card and Menefee, the prisoner was returned to the county jail.

Ray shot John W. O'Neill in the bar room of the Stag saloon Thursday night, December 17. Three days later O'Neill died.

Easter Offering Was $400.

There was a splendid attendance at the Easter service at Calvary Episcopal church, of which the Rev. Douglass Atwill is the popular rector, and the annual offering was a little the rise of $400.

JACK AND THE BEANSTALK

NOT TO LEAVE SEDALIA

NO TRUTH IN THE RUMOR THAT REV. FR NEIBERG IS TO BE A MISSIONARY.

REMAIN AS PASTOR OF SACRED HEART

Has a Fine Church and Congregation Here, He Says, and His Only Desire Is to Be a Successful Parish Priest.

Rumor, and persistent rumor, has been in the saddle and pushing things, as it were, for several days, to the effect that the Rev. S. Neiberg is soon to retire as pastor of Sacred Heart church to become a missionary in the order of the C. PP. S.

That Fr. Neiberg could have the honor did he so desire, no one who knows him intimately and hears him preach Sabbath after Sabbath has the least doubt.

When Fr. Benedict, of St. Joseph, and Fr. Neiberg were called to St. Boniface church, Brooklyn, N. Y., a month ago, to conduct a three weeks' mission, the "wise ones" were confident that it was the beginning of the end of Fr. Neiberg's pastorate here, and deep regret was expressed throughout the parish at the bare thought of losing their beloved pastor, despite the fact that his two efficient and popular assistants, the Rev. Fr. Christian Daniel and the Rev. Fr. Rudolph Stoltz, would remain.

A Democrat-Sentinel reporter talked with Fr. Neiberg Sunday and obtained from him a positive denial of the report that he will soon leave Sacred Heart church.

"Why," said the reverend father, with a laugh and a twinkle of the eye, "they (meaning his parishioners) will have to take some other method of getting rid of me, for I like Sedalia and her people so well that I expect to remain and labor here for the remainder of my days.

"Our mission in Brooklyn was a little out of the ordinary parish work, and in consequence a change and a recreation, despite the hard work connected with it.

"Deep interest was taken in the meetings, and Fr. Benedict and I were importuned to return the latter part of the month and conduct missions in churches in Brooklyn and New York city covering a period of seven weeks, but I will have to decline the invitation.

"Our order, the 'C. PP. S.,' has no church in New York state, but our priests have done much mission work there, even more than in Missouri, where we have a number of churches, and I would like to return for the seven weeks up to June 1, but it will not be possible for me to do so.

"'Do I like mission work?' As a change, yes; for a regular diet, no. My desire in life is to be a successful parish priest. If I can be that I will be satisfied. I have a fine church and congregation here, have many friends among non-Catholics, and you can say for me to my friends that I shall remain as pastor of Sacerd Heart church as long as my health permits or until the provincial of my order commands me to go to another field."

Fr. Neiberg is in splendid health, his trip east evidently having agreed with him. He preached to a crowded house at the 10:30 o'clock Easter service, and his sermon was without question one of the very best of the many excellent discourses he has delivered during his pastorate here.

IMPRISONED IN A CLOSET

THREE LITTLE GIRLS LOCKED UP TWENTY HOURS IN A VACANT HOUSE.

DOOR WITH A SPRING LOCK BLEW CLOSED

Plight of Children Was Discovered Accidentally by Two Women Who Were Passing House Where Confined.

Bay City, Mich., April 12.—Saturday afternoon three little girls, for whom search had bene going on since late Friday afternoon, were found in the closet of a nearby vacant house, where they had been for twenty hours. They had gone there to play, and the door, which had a spring lock, blew closed, making them prisoners.

The children's plight was discovered accidentally by two women who were passing the house. They heard a dog barking in one of the rooms and entered the house to release the animal. When they opened the door they were startled to hear a faint cry for help from the closet. They investigated, and the mystery surrounding the children's disappearance Friday afternoon was solved.

Although cold, hungry and frightened from their twenty hours' imprisonment in the dark and lonely place, none of the children was any the worse physically for the experience.

BAPTISTS HAD A BIG DAY

THE SUNDAY SCHOOL REACHED A TOTAL OF 294 PUPILS YESTERDAY.

CHURCH WAS BEAUTIFULLY DECORATED

A Well-Filled Purse Is Given Rev. Campbell and Granted Vacation to Attend Convention at Louisville.

(From Monday's Daily.)

Yesterday was a great day at the First Baptist church. The Sunday school was at the 294 mark, and two large audiences were in the preaching services. The Sunday school chorus, led by Mrs. Campbell, and the church chorus, led by Miss Lamy, sang several special songs, fitting to the day.

Mrs. Derthick, of Chicago, sang solos in both church services, to the delight of all. The church, too, was beautifully decorated, which added splendor to the occasion.

In the morning service Judge Hoffman sprang a surprise on Pastor Campbell by informing him that the church had a purse for him for the purpose of attending the Southern Baptist convention, which meets in Louisville, Ky., next month, and moved a vacation to him for that time, which was carried unanimously.

The Sunday school also remembered Mrs. Campbell by presenting her with a boquet of beautiful roses, a like greeting being extended to Miss Lamy by the church choir.

In the evening Evangelist Thomas delivered the sermon, and immediately after a solo by Mrs. Derthick, "Tell Me the Old, Old Story," an invitation was given to interested souls, four responding. Then an after meeting of power was held.

During the day five united with the church, two by experience and baptism, there being also a conversion of two.

The pastor announced that an evangelistic service will be held next Wednesday evening, at which time Mrs. Derthick will sing again.

Considerable Number of Articles That Are in Common Use Restored to Free List—Agriculture Schedule Remains the Same.

Washington, April 12.—The senate committee on finance, with all members present, met this afternoon and Chairman Aldrich presented the tariff bill as amended by a majority of the committee.

Senator Aldrich gave a brief summary of the bill. In the main the rates as reported from the senate committee were lower than those in the bill as it passed the house, the actual number of reductions being about three times the number of increases.

Such increases as have been made have been largely rendered necessary to preserve the symmetry of the schedules. A considerable number of articles in common use have been taken from the dutiable list of the house bill and restored to the free list, and the great mass of rates reported are below those of the existing law.

It has retained the house rate on lead ore of 1½ cents per pound, but it has been obliged to raise rates on lead products throughout the bill to correspond with this duty on lead ore.

The changes from the house bill in the main are of minor importance. The agricultural schedule, including meat products, remains practically unchanged from the existing law. The committee has not yet decided what rates to recommend on wood pulp, coal and hides.

When the committee met today the democratic members offered no objection to reporting the bill.

Gloves and hosiery are restored to the rates of the present existing law.

House Corrects Its Error.

Washington, April 12.—When the house met today Chairman Payne offered a resolution providing for the return of the tariff bill to the house in order that it might be amended so as to make it plain that crude petroleum and its products should appear on the free list.

After the bill passed Friday an inspection disclosed the fact that the products of petroleum were omitted from the free list, although such was not the intention of the house.

THEY LEFT OLD IRELAND

THE LOWEST NUMBER YET RECORDED WAS DURING THE YEAR OF 1908.

TOTAL FOR TWELVE MONTHS WAS 23,295

Of These, 10,480 Were Males and 12,815 Females—Of This Number 72.4 Per Cent Were Passengers to United States.

Dublin, April 12.—During 1908 the total number of emigrants who left Ireland was 23,295, which was the lowest in any year yet recorded.

On the basis of population, the native emigration represented a rate of 5.3 per 1,000, the lowest rate recorded in previous years being 7 per 1,000 in 1905, while that for 1907 was 8.9.

One striking fact comes out in the official statistics, and that is that the total emigration of the Irish people between May 1, 1851, when the enumeration was commenced down to December 31, 1980, almost equals the present population of the country.

The emigrants during the fifty-seven years numbered 4,126,310, while the estimated population at the middle of 1908 was 4,371,436.

Of last year's departing natives 10,480 were males and 12,815 females, of whom 37.5 per cent went to foreign countries or the colonies (including 72.4 per cent, to the United states), for Great Britain.

More than half of the male emigrants of fifteen years of age and upwards (53.7 per cent) were described as "laborers," and 67 per cent of the women emigrants as "servants."

THE CITY GOT $150 TODAY

Grew Out of the Rental of Liberty Park to "Dick" Dolph.

(From Monday's Daily.)

The suit on account of the City of Sedalia against R. C. Dolph, a former Sedalian, for $165 for rental of the Liberty park hall, has been adjusted by the payment of $150, a check for which amount was handed to City Attorney Blain today by C. H. Raiffeisen.

During the administration of City Attorney McGruder suit was instituted by the city in Judge Rickman's court for $165 against R. C. Dolph for rental of the hall at Liberty park.

Mr. Dolph started to leave Sedalia soon after, and his goods were attached. Later they were released on a re-delivery bond, signed by C. H. Raiffeisen.

Dolph was granted a change of venue to Smithton, where judgment was secured against him. No execution of the judgment was ever made until recently, when notice was served on Mr. Raiffeisen, who signed the bond for the release of Dolph's goods, that he would have to pay the amount.

Today Mr. Raiffeisen handed to the city a check for $150, which compromise had been made. In addition, he paid $66.05 costs accruing from the suit, making a total of $216.05.

A COLLECTION OF $684.38

Easter Offering at the First Congregational Church.

(From Monday's Daily.)

A large music loving congregation gathered at the First Congregational church last evening to take part in the praise service which had been announced The program was unusually fine, and many were the expressions appreciating the musical part of the service.

Toward the close the pastor, Rev. Harold Cooper, announced that the Easter offering amounted to $684, of which $174 came from the Sunday school. The trustees of the church had asked for over $600 and many were pessimistic until the result was announced last evening. The Doxology was sung very heartily when the announcement was made.

The choir was agreeably surprised to find that the church had been made brighter by new electric light fixtures. These had been placed by a class of the Sunday school of which Mr. C. E. West is the teacher. A happy day was closed with the singing of "All Hail the Power of Jesus' Name," and the membership was greatly encouraged by the result.

BURNING ECZEMA QUICKLY SPREAD

Started Like Ringworm on Hand—Hand Swelled and Then Humor Spread to Arms, Legs and Face—It was Something Terrible.

PRESCRIPTIONS FAILED: CUTICURA CURED HIM

"I have used the Cuticura Remedies for a very bad case of eczema with complete success. About fifteen or eighteen years ago the disease developed in the shape of a large pinhead on top of my hand. It burned and itched so much that I was compelled to show it to a doctor. He pronounced it ringworm, and made very light of it. He gave me a wash and told me to apply it before going to bed and all would be over in the morning. But the next morning my hand was all swollen up and I poulticed it. When the doctor came to his office I showed him the hand and to my surprise he told me that he had never experienced such a case in his practice and said it was well I poulticed it. After trying his different remedies the disease increased and went up my arms and finally to my thighs and legs generally and finally on my face. The burning was something terrible. After I had tried this doctor, as I thought, long enough, I went to another doctor who had the reputation of being the best in town. He told me it was a bad case of eczema and that it would take quite a while to cure it. His medicine checked the advance of the disease but no further.

"I finally concluded to try the Cuticura Remedies. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and found relief in the first trial. I continued until I was completely free from the disease and I have not been troubled with another attack since. I still use the Cuticura Ointment in my family as it is one of the best remedies to heal a sore or other injury rapidly. I can freely and truthfully say that the Cuticura Remedies are the best so far as my experience went with them and I am still recommending them, feeling sure I am not making a mistake. C. Burkhart, 236 W. Market St., Chambersburg, Pa., Sept. 19, 1908."

Complete External and Internal Treatment for Every Humor of Infants, Children and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cuticura Resolvent (50c.), or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. FOR NEW MISSOURI CAPITOL

Senate Indorses Plan to Vote $5,000,000 for Building.

Jefferson City, April 10.—A first step was taken yesterday towards getting a new capitol for the state when the senate adopted a resolution to submit to the people a plan to vote $5,000,000 for a new building.

Missouri now has no fireproof vault for its papers, and none of its original drafts of the laws are protected against fire. The land titles, from the government, are all in constant danger from fire.

The present capitol is seventy years old. It is picturesque, on a magnificent site, but inadequate, "besides, its roof leaks," as Governor Hadley always says, to show how far gone it really is.

A guaranteed cough remedy is Bee's Laxative Cough Syrup. For coughs, colds, whooping cough, hoarseness and all bronchial affections. Best for children because it is quick to relieve and tastes good. Gently laxative. Sold by the W. E. Bard Drug Co.

Former Conductor Is Host.

Charles Y. Lawrence, a former Missouri Pacific passenger conductor of this city, has established the Olympic cafe at 106 East Eighth street, Kansas City, and will cater especially to railroad patronage. Mr. Lawrence has legions of friends in Sedalia, who will hope to see him succeed in his new adventure.

ARE COMING TO SEDALIA

SOME OF THE ATTRACTIONS TO BE SEEN AT THE CHAUTAUQUA NEXT JULY.

HON. W. J. BRYAN IS TO VISIT US AGAIN

Number of the Best Platform Orators in America Will Be Heard—Musical Attractions That Are Out of the Ordinary.

Here is a brief hint of the many good things that will be in store for the patrons of the Sedalia Chautauqua for the '09 season. The assembly this year will open on or about July 31 and will continue for a period of twelve days. Among many of the good things in store for our people may be mentioned the following, which will be of more than usual interest to readers of the Democrat-Sentinel.

W. J. Bryan has included our Chautauqua among the few assemblies that he will address this season. His lecture will in all probability be "The Prince of Peace," or "The Value of an Ideal," which are two of the greatest lectures of the present age.

George R. Wendling, one of America's greatest lecturers, will deliver one of his world-wide lectures, "Modern Doubt."

Col. George W. Bain, the silver tongued Kentuckian, and one of the prize favorites of our assemblies, will return this year, bringing his newest and greatest message.

Strickland W. Gillilan, the funny man of the Baltimore American, and one of the best known magazine, newspaper and platform humorists in America, will deliver his famous humorous lecture, "Sunshine and Awkwardness."

DeWitt Miller, one of the most brilliant lecturers on the American platform, a man who constantly grows in popularity, a veritable diamond in the rough, will deliver "Reveries of a Bachelor."

R. D. Knowels, the brilliant American traveler, popular on both sides of the sea, will deliver a series of marvelous travelogues, which will be by far the finest thing in an illustrated lecture that has ever been presented in our assembly.

Lulu Tyler Gates, who made such a profound impression on the assembly last year, is coming again in an entirely new program, even better than her marvelous productions of last year. Mrs. Gates is the best woman reader in America.

Prof. J. Ernest Woodland, America's greatest scientist lecturer, will give scientific lectures, which will be illustrated with startling experiments. Prof. Woodland is the very best in his particular field, and commands the best prices of any scientific lecturer in America.

Adiran M. Newens, the well known characterist and monologist, will present one of his matchless monologues at the assembly, while Phidella Rice, a new, but really great reader, will present one of the modern morality plays. Mr. Rice has made a profound impression in the big eastern courses, and will be one of the prime favorites at the hautauqua.

Ora Samuel Grey, the brilliant young evangelist-lecturer, who is associated with J. Wilbur Chapman in his evangelistic work, will deliver his humorous lecture, "The Third Strike."

Taggart, the man from Vermont, with his piano and fiddle, a humorist who has bene making unusually good in the east, will give a few prelude numbers at the assembly.

Our people will be delighted to learn of the unusual musical attractions that have bene provided for the assembly. Among others may be mentioned the following:

Behumir Kryl and his great band of forty-two pieces and eight grand opera singers, which will be the feature of the hautauqua on Musical Festival day. Behumir Kryl is the greatest cornet soloist in America, and he carries a superb company of forty two artists, everyone of whom is a master musician to his finger tips.

This is the biggest musical attraction that has been booked by any of the western Chautauquas. The eight grand opera singers who accompany the band are headed by Ella Backman, the famous soprano, and this is the strongest array of soloists ever presented with any musical organization. Musical Festival day is destined to be one of the big red letter days in our assembly.

Schildkrets' Hungarian orchestra, which has been such a pronounced success at the Chautauqua for the past two seasons, will come again this year, improved and enlarged, and Schildkrets' will be finer than ever.

Parland-Newhall Male Quartette and Hand-Bell Ringers, the favorites of the '06 assembly, will return this season, while the Lyric Glee club, which made such a pronounced success at the assembly last year, comes again with the addition of another member, which now enables them to present sketches from the Mikado and other comic operas in full costume, in addition to their superb chorus work. Other splendid music features have already been secured, and the music throughout the entire assembly will be one of the distinct features.

In the way of novelties, some unusually good things have been provided and others are being secured.

Nicola, America's greatest magician, with two assistants, comes to the hautauqua for one of his marvelous entertainments; while Rosani, the great juggler, who work was such a feature at the Associated Chautauquas last year, returns this season in an entirely new program.

In institutional and educational features the Chautauqua will be materially strengthened this year.

D. W. Howell, of Chautauqua Institution, will present the C. L. S. C.; one of America's greatest Sunday school specialists, will conduct Sunday school institutes; while Jordan, the famous Missouri corn man, will be at the Chautauqua two days, preaching the gospel of good corn culture to the farmers.

Mrs. Eleanor Bingham, the well known lecturer on art and literature, will deliver a series of her superb lectures on art, while domestic science and other features will be added, and something of unusual interest is being provided for the boys and girls at the assembly.

This is just a brief outline of some of the good things that will be seen at the Chautauqua this year. Many other features are being added, and the assembly this year will have by far the best program that has ever been presented by any western Chautauqua.

Ed Stevens Heard From.

Mrs. E. W. Stevens is in receipt of a telegram from Will Brickle, a former Sedalian, now of El Paso, Texas, stating that Mrs. Stevens' son, Edward, had been heard of in Dalhart, Texas, and stated that he was en route to Denver, Colo.

Edward is the young man who left Sedalia several weeks ago with two companions for a tour of the south, and failed to meet the two at Durango, N. M., after making an appointment to meet there. His companions inquired about him, but heard nothing, and at first it was feared he had been killed or injured.

HE STOLE RATE THUNDER

THIS IS THE ATTORNEY GENERAL'S CHARGE AGAINST GOV. HADLEY.

SPURNS ALL OFFERS OF A COMPROMISE

Attorney General Major Won't Recognize Any Agreement Made by Executive, He Says, in Terms Most Emphatic.

Jefferson City, Mo., April 10.—Attorney General Major, in an authorized statement issued last afternoon, in effect charges Governor Hadley with stealing his thunder in filing, through the circuit attorney of St. Louis, the injunction suit against the eighteen proprietary railroads operating in Missouri, and by inference, at least, declares that the governor acted with poor grace in ignoring him in the proceedings.

That the attorney general resents the efforts of the governor to run the judicial, as well as the executive department of the state government seems apparent, though General Major's statement is couched in dignified language, befitting, his friends say, the position he occupies.

He makes it plain that he and not the governor is running the attorney general's office, and that he will not be bound by any compromise to which the governor may agree. He says in part:

"I informed Governor Hadley March 17 that, as the railroads had publicly made an announcement of an agreement among themselves to place the 3-cent passenger rate into effect in Missouri upon April 10, along with certain other rates, I would await their action and then proceed against the roads in the supreme court of Missouri, charging them with a conspiracy to fix passenger and freight rates in the state of Missouri, in violation of the constituion of the state, the anti-pool trust and conspiracy statutes, as well as the common law; that should such rates be placed into effect on April 10 I would then have the evidence, not only of the agreement and conspiracy, but of the actual carrying into effect of the same, and would thereby have the stronger case, all of which met with the hearty approval of the governor.

"The injunction instituted will not necessarily interfere with the plans mapped out by this department, but simply makes public before the time the plans which were expected to have been concealed until the rates were placed in effect. Having this action in mind when the roads came to Jefferson City for a conference, I absolutely refused to treat with them on any terms, save and except that the rates be left as they were.

"I took this position for these reasons:

"First, because I proposed to stand by the laws of the state until the supreme court of the United States declares them inoperative.

"Second, because all propositions discriminated against the general public and in favor of a certain class who represented not more than 20 per cent of the traveling public.

"Third, because I would promise them nothing in return.

"For these among other reasons I refused to agree to or be a party to either of the two propositions made to the railroads by the governor.

"The fact that I stand enjoined by the federal court from the enforcement of the 2-cent passenger law was and is no barrier whatever to the institution by me of the injunction proceedings in St. Louis and I would have freely given the governor my assistance in the matter had I been consulted.

"The offense consists not in the naming of the 3-cent rate, but in the conspiracy or agreement to name any rate to avoid free, independent and open competition.

"If any compromise is attempted or made following the injunction proceedings instituted in St. Louis, as is intimated, it will not bind this department in any way.

"There can be no compromse. Nobody has the right to speak for the state and surrender any of its powers. Nobody has the right to give the roads an immunity bath.

"I trust the report that the governor has had this suit instituted for the purpose of securng a compromise with the railroad is unfounded, because as the head of the legal department of Missouri, I will not recognize it if made. No action compromising the matter will be recognized because any agreement of compromise is itself outside of the law.

"My position stands unchanged and will be. I have no compromise to offer nor any to accept. I simply trust the roads will have the good sense to retreat from their avowed intention and leave matters as they are, thus verifying my belief all along that the roads would make no change pending the appeal.

"I have information now that some of the roads entertain the views which I have expressed and are willing to leave the matters as they are."

DOWN TO RIVER BOTTOM

WENT THE SUBMARINE BOAT PLUNGER SATURDAY AFTERNOON.

IT WAS DONE TO AVOID A COLLISION

Seven Men on Board Would Have Lost Their Lives Had Not the Boat Taken the Dive Beneath the Water.

Hearst News Service.

Norfolk, Va., April 10.—At the risk of losing their lives and to avoid a collision with the naval collier, Hannibal, the crew of the submarine boat Plunger made a terrific dive to the bottom of the Elizabeth river near the navy yard here today.

The plunger was out for practice in submarine work, and while submerged with the exception of two feet of her flag pole, the Hannibal came along in tow of the tug Mohawk.

Just how it happened, perhaps, is only known to those on board the Plunger, but just when it appeared that there would be a collision despite the efforts of the Hannibal to avoid one, the tiny little craft suddenly shot down to the bottom of the river and came up several yards away from the Hannibal, safe and sound.

Seven men were on the Plunger, and had the Hanibal struck her it is believed all of them would have met death like rats in a trap.

S.S.S.

CURES BLOOD POISON

Removing the symptoms is not all that is necessary to cure Contagious Blood Poison. The virulent germs which produce these outward manifestations must be completely driven from the blood before a real cure can be effected. The least taint left in the circulation will, sooner or later, cause a fresh outbreak of the trouble, with all the hideous symptoms of ulcerated mouth and throat, copper colored splotches, falling hair, sores and ulcers, etc.

Contagious Blood Poison is the most treacherous of all diseases. It has its victims in its power almost before they realize its presence, because its first symptom is usually a little sore or pimple so insignificant that it does not excite suspicion. But the insidious poison is at work on the blood and in a short while the patient finds he is more or less affected from head to foot.

Contagious Blood Poison is too dangerous to trifle with. No time should be lost in ridding the blood of this destructive poison, and in no disease is it more important to have the proper remedy. Medicines which merely check the symptoms for a time and leave the real cause smouldering in the system have brought misery and disappointment to thousands. Faithfully the sufferers took such treatment, usually of mineral nature, and when all symptoms had disappeared and the treatment was left off, found the virus had only been shut up in the system awaiting a favorable opportunity to return, with every symptom intensified.

S. S. S. cures Contagious Blood Poison and cures it permanently. It goes down into the blood and removes every particle of the poison, makes the circulation pure and healthy, and does not leave the slightest trace of the disease for future outbreaks. S. S. S. is made entirely of roots, herbs and barks, all of which are healing and cleansing in their nature. It does not contain a particle of mineral in any form to injure the delicate parts of the system. S. S. S. will also drive out any lingering remains of mineral poison that may be in the blood from the former treatment. If you are suffering with Contagious Blood Poison S. S. S. will cure you, because it will purify your blood. Home treatment book and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

CURED SOUND AND WELL.

Dear Sirs:—I didn't find out that I had contracted Contagious Blood Poison until it had made considerable headway, and fortunately for me the friend that I first consulted had had some experience with the disease, and advised me to take S. S. S., so I didn't fool with any doctors, but began at once the use of your medicine, taking it as directed. My friend told me to stick to it, and that was what I did and got along splendidly from the very first, and my recovery was rapid. I took a number of bottles, and am now as well as ever. When I began S. S. S. my face was so full of sores and eruptions that I could not shave, and now there is not a blotch or pimple on my body. There is nothing in the world that can beat S. S. S. for Blood Poison, and I always recommend it for such cases. A friend of mine is taking it now, and is getting along nicely.

COVERED WITH SORES.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

THE USUAL SYMPTOMS.

Having used S. S. S. quite extensively, I am in position to know its virtues. As the result of a serious blood disorder my blood became poisoned and I suffered severely with Rheumatism and other symptoms not necessary to mention. A friend told me he had been cured of my trouble by S. S. S. and upon his recommendation I began its use. After using it for some time my blood was thoroughly cleansed of all poisons and made pure and strong again.

I wish also to speak of its tonic properties. It built up my general health, it improved my appetite, gave me increased strength, and I felt better in every way. I am a great believer in S. S. S., and with pleasure recommend it to all who need a good blood medicine. ROBERT M. ZWEITZIG.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which *seem* remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

REV. D. E. DAVIDSON RESIGNS FROM CHRISTIAN CHURCH, WASHINGTON, IND.

DESERTED GIRL HIS "COLONIAL QUEEN"

Love Letters to Crippled Miss Bunn Clark Are Made Public—The Minister Called a Brute and a Pervert.

Washington, Ind., April 10.— The Christian church has received the resignation of its pastor, D. E. Davidson, who, in a suit filed by Miss Bunn Clark, crippled daughter of former Mayor Clark, is made defendant.

Miss Clark alleges that Davidson was married to her in St. Louis by both signing a marriage vow. Her suit asks that this marriage be declared legal. Rev. Davidson in his resignation offers no defense. The preacher is watched that he may do no harm to himself, as he intimates suicide in one of his letters to Miss Clark. Following is a letter written by him:

"Precious: Just read your letter and come to say that it does not meet my appoval at all, and as for your returning home, that is as you please A mother who is so unnatural as your mother has shown herself and to whom her only girl fears to come, and who has stated to me things that she has, only to violate them, I would trust for nothing.

"Now, if you think her capable of scandalizing and ruining you in order that she may bring disgrace upon me why should I be disposed to trust her? If you think her such a monster as to openly betray you and ruin us both, then you will, I suppose, remain away. I can't believe her so terrible as that, but if you are right, then I am ready for the commencement of the end, and it makes little difference how soon it comes.

Just remember this, however. When people try to force they are coming to the wrong place, and if they are in doubt, you may inform them that if they are not satisfied and demand it, they will have to shoot out whatever more they get.

"With what patience I can command I am awaiting the disposition that you and your mother may make of me and my futue.—Elmer."

A letter sent a few days later reads:

"I come to you with an ocean of love and good will to assure you of your manifest bravery and of your glorious victory.

"The ordeal must have been terrible, and the loneliness of it was not its least cross, but they were borne with such success as only an imperative will makes it. My little colonial queen, at times like this it tests the blood and only the royal can produce such results.—Elmer."

Bitterness towards Miss Clark's mother is shown in another:

"Precious: Your mother's letter was simply a roast to me and for me, and consequently I consigned it to the flames. She may awaken to the fact that her inhumanities are not long to be tolerated, and that she has started something she can not stop.

"Some things begin to look exceedingly strange to me and one of these days they are liable to reach the limit. This condition of life is hourly growing less tolerable. I hope I will not be driven to desperation by treachery. I will try to reach the train with this.

"Remember, when I am played with fair I am as true as the needle, but I will not stand for any sort of handling.—Elmer."

There has been much inflammatory talk in the streets, and the authorities have taken precautions to prevent any outbreak of a mob. Threats of tarring and feathering the minister have been made by hotheads. Public sentiment which favored the minister has turnd, and he is the subject of great criticism. However, many membes of the congregation declare the minister will have to acknowledge his guilt before they are satisfied.

The Washington Heald, edited by Charles G. Sefrit, who was formerly attacked in sermons by Davidson for his attitude in the recent local option campaign, today severely scored the minister in an editorial, terming him "a brute and a pervert."

COLDEST TEXAS DAY IN YEARS

Greenville, Texas, Gardens and Corn Ruined by Frost.

The thermometer dropped as low as 29 degrees above zero. It was the coldest for the date in twenty-two years.

Experience Proves.

Time tells which is best and most reliable. For 70 years Perry Davis' Painkiller has been driving away pain and bringing health—as a remedy for sprains, burns, bruises, rheumatism, neuralgia. It cures colds, cramps, bowel complaint. But be sure to take this unequalled remedy promptly. Large bottles 35 cents or larger 50 cents.

RIDERS AGAIN ABROAD

WESTERN KENTUCKY IN FEVER OF EXCITEMENT OVER LATEST RAID.

PLANTERS SUFFER FROM DEPREDATIONS

Plants Were Destroyed and Home Set on Fire—Offense of One Was That He Wanted to Sell to Independent Buyers.

Hearst News Service.

Lexington, Ky., April 10.— Night riders broke out again today in Western Kertucky, just across the state line from Tennessee.

It is feared a general uprising will occur, causing troops to be thrown into that section, and greatly curtailing the crops of tobacco which have been expected.

In Calloway county today a gang of men made a raid on the plant beds of Dennis Penny, and destroyed them all.

Blood hounds have been ordered, but they had been sent o Henry county, Tennessee, where the riders had overpowered Gentry Miller and burned his warehouses and stables last night.

The situation as reported tonight is extremely critical.

Over 100 tobacco plant beds have been ruined by sowing grass seed and throwing salt over them.

Penny, whose plant beds were destroyed, sold his tobacco through the association, but was active in the circulation of a petition for loose leaf sales, presenting a petition to the president of the association, Felix Ewing, himself.

Miller says he lost two horses and all his hay and feed in the fire at his place. He is an independent planter.

Whereas, said deed of trust provided that in case default be made in the payment of said note, or if default be made in the payment of the taxes as they become due, then the whole debt, at the option of the legal holder thereof, shall forthwith become due and payable; and,

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Parsons, Kas., April 10.—As the result of the W. C. T. U. crusade last fall, in which the assistant attorney general helped, two more drug stores in Parsons went out of business yesterday when their stocks were sold under bankruptcy proceedings and moved out of the city.

This leaves only twelve drug stores in Parsons. A year ago when the W. C. T. U. got busy and closed the Sunday theaters and stopped the illegal sale of liquor by the drug stores there were twenty-three.

The train was in charge of Conductor Taggard and Engineer Frank Jaeckel, of East St. Louis. The cave-in ocurred as the engine passed over.

Jaeckel applied the air brakes and jumped. He was cut on the head by falling against a rail. His injuries were attended here and he was able to go to East St. Louis. H. R. Rushing, the fireman, was slightly injured. The passengers were not hurt.

Charlottesville, Va., April 10.—Jas. A. Yale got 86 points and the Southerners 31.

THE STRENUOUS LIFE.

(As Told by the Nurse.)

That is your father, dear,
Just going out the door;
Oh, he's been living here
For seven years or more!
In business he's so deep
He has no time to fret
With little girls, but keep
Up hope—we'll meet him yet!

That is your mother, dear,
Just getting in the car
She knows that you are here
And also who you are!
But what with clubs to meet
And bridge to play, you see,
With hours so short and fleet
She's turned you o'er to me.

But there, my dear, don't fret,
Or let those blue eyes blur,
Some time I know you'll get
Acquainted, too, with her.
Why, sometimes, in the night
When angels vigils keep,
She asks if you're all right
And when you went to sleep!

I think you'd like them both,
I think they'd both like you.
But what with "higher growth"
And many things to do
They're simply rushed to death,
But there, my dear, dont cry,
If they should stop for breath
We'll meet them by and by.

—J. W. Foley.

Expenses More Than Receipts.

According to one in authority, the expense of operating the new train installed on the Missouri Pacific Saturday night is $1,400 a month in excess of the receipts derived from the run. This statement was made by a local official of the company Saturday.

The adoption of the new time card by the higher officials of the road is due principally to Supt. Alexander, of this city, and other local officials, who were the originators of the idea to establish a new train.

W. D. VANDIVER'S NEW JOB

FORMER COMMISSIONER OF INSURANCE UNDER FOLK HEADS TRUST CO.

HE WAS ELECTED PRESIDENT SATURDAY

Institution Is Capitalized at $500,000 and Will Do a General Surety Business in Missouri, Illinois and Oklahoma.

Associated Press.

St. Louis, April 10.—Former Insurance Commissioner W. D. Vandiver has been elected president of the Federal Trust Co. of this city, and under his leadership the corporation will enlarge the scope of its operations and do a general bonding business. The election took place today. Mr. Vandiver succeeds Joseph McCoy, who has been acting president until the company was thoroughly in line for business, and who persuaded Mr. Vandiver to become permanent president.

The company has decided to do a general surety business but not to do any banking. The operations will be throughout Missouri, Illinois and Oklahoma, and the plan is to do a country trust business with city headquarters. The company is represented in more than 150 counties in these states, and each representative owns stock in the company.

The Federal Trust Co. was chartered last November, with a capital stock of $500,000. More than half of this has now been subscribed, and the executive committee will now place another $100,000, when the concern will be ready to do a regular business.

THIS LOOKS KIND O' 'DRY'

PROHIBITION BILL IS ORDERED ENGROSSED BY THE MISSOURI HOUSE.

THE VOTE AS RECORDED: DRY, 86; WET, 45

Date at Which the Law Is to Become Operative Changed to January 1, 1913—Action Will Be Had Wednesday, April 14.

Jefferson City, Mo., April 10.—By a vote of 86 to 45 the proposed amendment to the constitution, establishing state-wide prohibition, was sent to engrossment in the house yesterday after a five-hour debate. Its final passage was made by special order for next Wednesday afternoon.

Though the Holcomb tax rider was defeated by a vote of 59 to 71 the amendment as ordered engrossed was so changed as to provide that should prohibition be adopted at the polls in November, 1910, it will not become operative until January 1, 1913. The amendment was offered by Representative Conran and was adopted by a vote of 70 to 42.

To get it before the voters the proposed constitutional amendment must receive not less than 72 votes in the house and not less than 18 in the senate. After the Holcomb tax rider was defeated Represetative Coakley sought to get through a substitute which lost Thursday, but it was defeated by a vote of 74 to 55.

The fate of the amendment in the senate is in doubt, but its chances for being passed are considered good. Leading senators do not like the way the matter has lined up the house democrats, who practically endorsed prohibition. This feature may defeat the amendment in the democratic senate.

No Successor for Mr. Byng.

Up to date no successor has been appointed for John W. Byng, manager of the R. G. Dun Mercantile agency in this city, whose resignation to become connected with the Germo Manufacturing company takes effect on April 15.

In all probability George Ware, one of the most efficient young men connected with the Dun people, will fill the duties of active manager, although the local office will be managed by the district superintendent.

GOOD, HONEST, SQUARE-DEAL

Medicines like those of Dr. R. V. Pierce of Buffalo, warrant their makers in printing their every ingredient, which they do, upon their outside wrappers, verifying the correctness of the same under oath. This open publicity places these medicines *in a class all by themselves.* Furthermore, it warrants physicians in prescribing them largely as they do in their worst cases.

Dr. Pierce's Golden Medical Discovery

Is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach and bowels, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), liver, bowels (as mucous diarrhea), or other organs.

Dr. Pierce's Favorite Prescription

Is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities peculiar to women. It is a powerful yet gently acting invigorating tonic and nervine.

For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American, medicinal, forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines *of known composition*, any *secret nostrum*. Don't do it.

TELEPHONE PEOPLE ROW

Hughesville and Houstonia Companies at Outs.

The Hughesville Telephone Co. Wednesday served formal notice on the Houstonia Telephone Co., and today severed connections with this exchange, says the Houstonian.

The company here has made arrangements for Kinloch connections through Lamonte and will be able to give their subscribers connections for long distance service over both Bell and Kinloch lines, as formerly.

The bad feeling existing between the two companies grew out of the charging of a toll to Longwood and Hughesville, finally resulting in an injunction, a suit to dismiss it and an appeal to the Kansas City court of appeals, which will not render a decision until next fall.

The break between the two companies is to be regretted.

FOR A PUBLIC HOSPITAL

MEETING HELD AT THE COURT HOUSE SATURDAY FOR THAT OBJECT.

MAY PURCHASE DR. E. A. WOOD'S MAYWOOD

Business Men and Physicians in Conference Agree That Sedalia Should Have Such an Institution--Committee Appointed.

(From Sunday's Daily.)

A movement that is probably destined to give Sedalia an up to date and thoroughly equipped public hospital was inaugurated last night at the county court rooms, when the Pettis County Medical society and a large number of prominent business men met to discuss the feasibility of purchasing the Maywood hospital from Dr. E. A. Wood and opening its doors to all the patients of all the local physicians.

For some time this subject has been agitated among the members of the medical society, and conferences have been held with Dr. Wood as to price, terms, etc., and the meeting last night was a forward step in the matter that will undoubtedly lead to some definite action.

Dr. Dyer presided at the meeting and Dr. Trader acted as secretary.

Dr. W. J. Ferguson outlined the plans for securing the hospital and told what had been done thus far and stated what Dr. Wood was willing to do in the matter of sale, etc. He was followed by Dr. S. G. Kelly and afterwards others in the meeting, doctors and laymen, all favoring the idea of securing and maintaining an institution of the kind.

After a full and free discussion a committee of five, consisting of E G. Cassidy, J. W. Mellor, Dr. W. J Ferguson, Dr. S. G. Kelly and Dr. H B. Cole, was appointed to take charge and to ascertain whether or not plans can be formulated that will lead to success.

The idea is to form a stock company of physicians and business men to purchase the Maywood and afterwards to conduct it along liberal and progressive lines and making it an institution where all the afflicted may go and be treated by their own physician.

Sedalia surely needs a hospital of this kind, and it is to be sincerely hoped that ways and means may be found to accomplish the undertaking.

MAYWOOD NURSE TO MARRY

Miss Ida Jansson Will Wed Andrew Olsen in Philadelphia This Month.

(From Sunday's Daily.)

Miss Ida Jansson, for two years past a valuable member of the staff of nurses at Maywood hospital, has tendered her resignation and will leave Wednesday night for Philadelphia, Pa., where, during the latter part of the month, she will be united in wedlock to Andrew Olsen, a prosperous business man of Hollywood, a suburb of Philadelphia.

The ceremony will take place at the Swedish Lutheran church in Philadelphia, and the bridal couple will go to housekeeping at once at Hollywood.

Mr. Olsen is a native of Sweden and is a wellto-do young man, highly esteemed by every acquaintance.

His bride-to-be is also a native of Stockholm, Sweden, and was graduated from one of the largest massage hospitals in the country at Philadelphia two years ago.

Immediately afterwards she came to Sedalia to accept a position at Maywood hospital, and since residing here has won and retained the true friendship of hundreds of Sedalians, all of whom will learn of the approaching event with pleasure, at the same time extending congratulations to the young man fortunate enough to win the heart of such a lady.

INDICTMENTS 'QUASHED'

IN THE MUSKOGEE, OKLAHOMA, TOWN LOT CASES THAT CHARGED FRAUD.

GOV. HASKELL WAS ONE OF DEFENDANTS

Grand Jury Should Have Been Composed of 15 Instead of 23 Men—The Decision Was Rendered by Judge Marshall.

Associated Press.

Tulsa, Okla., April 10.—Governor Charles N. Haskell and six other prominent Oklahomans, who were indicted by the federal grand jury charged with fraud in Oklahoma town lots, will not have to stand trial.

The motion of the defendants to quash the indictments was upheld today here by Judge John F. Marshall, of Utah, in the United States circuit court.

The court, in its decision, which was very lengthy, quashed the indictments on the ground that they were returned by a grand jury composed of twenty-three men under the federal law, instead of by a jury of sixteen, as provided for by the Arkansas law, which was held to be in force in old Indian Territory by federal enactment at the time when the alleged frauds were committed.

Sylvester Rush, special assistant attorney general, who worked up the case for the government, stated, after the opinion was handed down today, that he would again present the matter to the grand jury, submitting it without delay to the body now in session.

The attorneys for the accused assert that the statute of limitation will intervene to preven new indictments being returned. It is stated that the last overt act charged against the defendants was committed in April, 1906, and that the statute of limitation in cases of this nature runs but three years.

FORMER SEDALIAN DEAD

Humphrey Sullivan Passed Away at Springfield.

(From Sunday's Daily.)

P. F. Sullivan, a Missouri Pacific conductor, received a telegram Saturday morning, announcing the death at Springfield, Mo., late Friday, of his brother, Humphrey Sullivan, a former Sedalian, who succumbed to a lingering illness with tuberculosis of the stomach.

Mr. Sullivan, who received the death message, while en route to St. Louis to resume work, left the Mound City at once for Springfield to attend the funeral. W. A., Benjamin and R. J. Sullivan, other brothers of this city, will leave for Springfield today.

Mr. Sullivan was 48 years old and leaves a widow and two children, Myrtle, aged 18, and Lawrence, aged 16. He was a member of the Roman Catholic church and belonged to the Order of Railway Conductors.

Mr. Sullivan formerly resided in Sedalia, at which time he was employed as brakeman for the Missouri Pacific. Nineteen years ago he went to Springfield, where for years past he has been doing extra passenger work out of that place.

WROTE ON A BERRY BOX

Chance for Jim Card and Charlie Menefee to "Step Off."

"Do you think I am pretty. I did it myself. I cannot tell a lie."

These words, written with a pencil, were discovered on the side of a box of strawberries, consigned from the south to John W. Hicks, the Ohio street grocer, by a female purchaser at the store Saturday.

On the opposite side of the box, also written with a pencil, were these words: "Ollie Pulley picked this. If Willie Clark doesn't get this, please return to owner."

The box of berries was a part of a consignment sent from Golden, Texas, to the Hicks store last week, but the writing on the box was unnoticed until Saturday.

The head of the Hicks store furnished the name and address of the writer to Deputy Sheriffs Card and Menefee, and if either of these two fall a victim to Cupid's charms, with a fair damsel from the south as one of the principals also, Sedalians in general will know the origin.

POET AND ESSAYIST DEAD

Algerson Charles Swinburne Passed Away in London.

Associated Press.

London, April 10.—Algerson Charles Swinburne, poet and essayist, died today.

He had been suffering with influenza, which developed into pneumonia.

The Order Was Rescinded.

The Missouri, Kansas & Texas Railway company issued an order April 1 that any employe who had his pay check cashed in a saloon would be subject to discharge. It is now learned that the order has been rescinded, but no explanation is furnished.

When the order was issued the brewery interests were up in arms, it is said, and threatened to withdraw their business from the Katy if the edict were carried out. It is also said that suits aggregating $300,000 against the company were in sight.

The Missouri, Kansas & Texas has long had in effect an order subjecting to discharge any employe found drinking in a saloon.

Several were dismissed when the order was comparatively new, and employes soon realized that the order meant precisely what it said, no exception being made.

It would now require a smooth secret service man to find a Katy man drinking in a saloon, whether on or off duty.
